I, Linda Jordan am over 18 years old, do not suffer from any mental impairment, have personal knowledge of the facts listed below and declare under penalty of perjury:

I used the government run E-Verify System to verify the employment eligibility for Barack H Obama (Obama) and it revealed a "Notice of Mismatch" between Obama's name, birth date and Social Security Number (SSN), compared to the information the Social Security Administration has on file.

I saw Obama's Selective Service Registration (SSR) form which was available on the web at www.sss.gov and copied the SSN Obama used on that form. I also read the reports of licensed investigators Neil Sankey, Susan Daniels and the opinion of retired senior deportation officer of the department of Homeland Security John Sampson, that the SSN Obama was using was fraudulent and/or never issued to him.

Between October 2008 and May 2011, I submitted several requests to agencies and people with the legal responsibility and authority to investigate the use of forged documents and election fraud, concerning Obama's birth records and SSN. (attachment A)

To date no one with the legal responsibility and authority has responded to any of my requests.

I read part of the testimony of Marianna LaCanfora before the Committee on Ways and Means Sub Committee on Social Security in the House of Representatives dated April 14th, 2011. She explained that a SSN in conjunction with a proper identity document determine whether a person is authorized to work. LaCanfora said that the E-Verify system run by the government is a free, Internet-based system that allows employers to electronically verify the employment eligibility of their employees. The Immigration Reform and Control Act of 1986 required all employers to verify the identity and employment eligibility of all new employees regardless of citizenship or national origin.

I considered myself to be one of the employers of the President of the United States.

On July 26, 2011, I tried to enroll in the E-Verify System but it required the employer to enter data from their employees I-9 Employment Eligibility Verification Form. I have been unable to locate one for Obama.

On August 17, 2011, I went back on the E-Verify website and saw that there was a "Self-Service" function that was more streamlined and easier to use when checking an employees eligibility. I entered the name Barack H Obama, birth date August 4, 1961 and SSN 042-68-4425. This data was entered correctly. The report I got back from the SSA included a "Notice of Mismatch with Social Security Administration (SSA) Records". (attachment B)

Case Verification Number

Reason for this Notice:

SSN does not match. The Social Security Number (SSN) entered in Self Check is valid, but the name and/or date of birth entered do not match SSA records.

SSN is invalid. The Social Security Number (SSN) entered in Self Check is not a valid number.

SSA unable to confirm U.S. Citizenship. Cannot confirm that the employee is eligible to work because the SSA records do not show that the SSN Holder is a U.S. Citizen.

SSA record does not verify, Other reason. SSA found a discrepancy in the record.

SSA unable to process data. SSA found a discrepancy in other data in the record.

Civil Action:
SACV09-00082-DOC (Anx)

Affidavit of Susan Daniels

1. My name is Susan Elizabeth Daniels. I am over 18 years old, am of sound mind and free of any mental disease or psychological impairment of any kind or condition.
2. I am a citizen of the United States of America, I am 68 years old and I was born and raised in the State of Ohio.
3. I am licensed by the State of Ohio as a private investigator; I am president of Daniels and Associates Investigations, Inc., incorporated in March 1995, license number 65199565509.
4. I have personal knowledge of all the facts and circumstances described herein below and will testify in open court to all of the same.
5. I located a social security number for Barack Hussein Obama and found that it was issued between 1977-1979 in the State of Connecticut but as I investigated

further, I found an additional eight social security numbers. One of the numbers had (Deceased) behind it. I was able to find the name of the person the SSN actually belonged to and printed it from the Social Security Administration death index.

6. I researched social security numbers for Michelle Obama. When I ran her name, two different social security numbers appeared for her, including one that does not belong to her but is listed for her at 1600 Pennsylvania Ave., Washington, D.C.

7. The true and correct copies I personally obtained are attached.

8. I solemnly swear under penalty of perjury that all the facts stated and circumstances described above are true and correct statements.

9. I have not received any compensation for making this affidavit.

Further, Affiant saith naught.

Signed and executed in Mentor, OH on this 19th day of October, 2009.

By:

Susan Elizabeth Daniels

NOTARY'S JURAT

Susan Elizabeth Daniels appeared before me in person on this 19 day of October, 2009, in Mentor (city), Lake County Ohio (state), U.S.A (country) and having presented to me her driver's license and having been sworn by me duly under oath and having been admonished that she did so under penalty of perjury, she did then and there depose herself and give the above-listed statements in my presence in the form of his written affidavit.

Specifically but without limitation, Susan Elizabeth Daniels did in my presence authenticate the documents attached here as a true and correct copy of the documents she obtained and described in her affidavit.

Notary Public in the State of Ohio

EXHIBIT 3

Affidavit of Albert Hendershot

I, Albert Hendershot am a professional debt collector, I am over 18 years old, I have personal knowledge of the facts provided herein and I will be able to competently testify in court of the facts as listed in this affidavit:

1. I personally performed a search with Merlin Information Systems and <http://www.acxiom.com/identity-solutions> database which is routinely used by professional debt collectors
2. I found that both Barack Obama and Harry J. Bounel are listed as holders of the same Connecticut Social Security number 042-68-4425 and resided at the same address 5046 S. Greenwood Ave, Chicago , Illinois, Exhibit 1 attached herein is the true and correct copy of the printout from <http://www.acxiom.com/identity-solutions> database. Exhibit 2 attached herein is the (FOIA) Freedom of Information Act request which was completed for numident 042-68-4425 with Harry Bounel as the name associated with said numident 042-68-4425. Exhibit 2 clearly states that the aforementioned numident belongs to Harry Bounel and not Barack H Obama as detailed in the response from the Social Security Administration dated November 2012.
3. Michelle Obama is listed as a relative of both Harrison (Harry) J. Bounel and Barack Obama.
4. <http://www.acxiom.com/identity-solutions> database shows that the last change in the record of Harry J. Bounel Social security number 042-68-4425 was performed by Michelle Obama in and around November 2009, who is listed as a relative of Harry J. Bounel.

I attest under the penalty of perjury that all of the foregoing is true and correct to the best of my knowledge and informed belief.

Affiant further says naught.

Signed Albert Hendershot

Dated

Feb 1, 2013.

Signature of the Notary Public

Luke Keim

November 16, 2012

This letter is in response to your Internet request for a Numident for Mr. Harry Boumel.

The Privacy Act of 1974 (5 U.S.C. § 552a) restricts disclosure of the information you requested. The only exception that might permit us to disclose these records to you without consent would be the exception for disclosure required by the Freedom of Information Act (FOIA) (5 U.S.C. § 552).

When we receive a request from a member of the public to release personal information about another individual from our records, we must balance the individual's privacy interest in withholding the information against the public interest in disclosing the information. We must determine whether disclosure would affect a personal privacy interest. There is clearly a substantial privacy interest in the personal details furnished to the Government. The only public interest we must consider is if the information sought would shed light on the way an agency performs its statutory duties. We may not consider the identity of the requester or the purpose for requesting the information. While there clearly is a public interest in knowing how the Social Security Administration administers the Social Security Act, disclosing records containing personal information about named individuals would not shed light on how the agency performs its statutory duties. ~~Therefore, disclosing this information would be a clearly unwarranted invasion of personal privacy, and the FOIA (5 U.S.C. § 552(h)(6)) does not require disclosure.~~

If you disagree with this decision, you may request a review. Mail your appeal within 30 days after you receive this letter to the Social Security Administration, Office of Privacy and Disclosure, 617 Altmeyer Building, 6401 Security Boulevard, Baltimore, Maryland 21235. Mark the envelope "Freedom of Information Appeal."

Sincerely,

Dawn S. Wiggins
Freedom of Information Officer

Barack H Obama aka Harrison J Bounel Alias Has Been Scrubbed From Databases

03/11/2011 The alias of Harrison J Bounel is discovered sharing the same SSN and home address as Barack H Obama as of 11/2009 by AL Hendershot.

03/11/2011 Conflicting information is discovered as to the registered Owners of 5046 S Greenwood Ave., the supposed home owned by the Obama's showing that it is not the Obama's as the true owners of the Hyde Park Mansion.

03/14/2011 Harrison J Bounel alias hits the internet as a searchable term for Barack H Obama's alias as of 2009

04/20/2011 WND and Jerome Corsi re-open the case concerning 5046 S Greenwood with the article, "[Why Do 3 Supporters Own Obama Home](#)"

05/14/2011

The Obama Hustle Blog

[www.theobamahustle@wordpress.com](http://www.theobamahustle.wordpress.com)

Goes live exposing evidence on Barack H Obama

08/14/2011 WND and Jerome Corsi re-open the case concerning the the \$104,500.00 "Obama Buffer Zone" in an article, "[Tax fraud suspected in Obama land deal](#)"

As of 08/20/2011 a recent search was completed on the Obama SSN 042-68-4425 of the same database that was used when Harrison J Bounel alias was originally discovered and the alias had been completely scrubbed and all evidence has been eliminated. The following graphic images will point that out.

05/20/2011 Al Hendershot is interviewed by [Trunews Radio](#) (with a combined 300K plus hits on youtube as of 08/2011) concerning the Obama alias of "Harrison J Bounel" and the real estate and tax fraud issues associated with 5046 S Greenwood Ave.

State of Texas)
) ss.
County of Montgomery)

AFFIDAVIT

Jeffery Stephen Coffman, being duly sworn, on oath deposes and says:

1. I am a resident of Texas. The information contained in this affidavit is based on my personal knowledge.
2. I am a licensed Private Investigator (licensed A620963) in the State of Texas.
3. I am a retired Resident Agent in Charge/Special Agent from the Department of Homeland Security having retired after 20 years during June 2007.
4. I am a retired Chief Investigator with the United States Coast Guard Investigative Service (Reserve) having retired after 22 years during March 2010.
5. I was formerly an Investigator with the Office of the Attorney General with the State of Texas serving from August 2008 until I quit during September 2009.
6. On my own and not as an Investigator or Special Agent with any state or federal agency I looked into circumstances surrounding then U.S. Senator Barack Obama's Selective Service registration.
7. I have utilized the Selective Service's "Check A Registration" online function (www.sss.gov) numerous times to verify whether a required registration was properly completed.
8. On or about February 13, 2008, I sent an email to information@sss.gov asking why Senator Obama's registration didn't show up when queried on the Selective Service website (www.sss.gov).
9. On the same day (February 13, 2008) I received an email from information@sss.gov stating "Sir: There may be an error in his file or many other reasons why his registration cannot be confirmed on-line. However, I did confirm with our Data Management Center that he is, indeed, registered with the Selective Service System, in compliance with Federal law. Sincerely, Janice L. Hughes/SSS".
10. On September 7, 2008 I viewed a televised interview in which then Senator Obama stated that he registered for the Selective Service when he graduated from high school. I recalled that Senator Obama graduated from high school in 1979 and the Selective Service registration requirements were not reinstated until 1980.
11. I submitted a Freedom Of Information Act (FOIA) to the Selective Service System for Senator Obama's Selective Service registration. I received a copy of a Selective Service registration in the name of Barack Hussein Obama and a copy of a computer screen print out with a date of 09/09/08.
12. Reviewing these copies I noted several areas of concern. For example, I noted that on the registration copy the signature of the registrant was dated July 30, 1980, but the United States Postal cancellation stamp indicating date received was dated the previous day of July 29, 80. I also noted that the "No ID" block was checked indicating that the registrant did not present an ID when the registration

was said to have been presented to the postal clerk. The most outstanding aspect of the registration card was that the aforementioned U.S. Postal Cancellation Stamp had only a two digit year instead of the usual four digit year.

13. During my active military service with the US Army from 1973 to 1977, I served as a collateral duty as one of my unit's mail clerk. During that service I was familiar with US Postal regulations and procedures. It was my understanding that the US Postal Cancellation stamp was a four digit year and not a two digit year. I also knew that the day, month, and year of that model postal cancellation stamp are removable inserts that the postal clerk changes as appropriate. I have never seen a two digit insert for that model postal cancellation stamp.
14. Over several weeks, I researched the issue on the internet attempting to find any other incident where that model cancellation stamp had a two digit year instead of the usual four digit year. I was unable to find any other instance where that model postal cancellation stamp had a two digit year instead of the usual four digit year.
15. Using my training and experiences, I analyzed the image of the postal cancellation stamp on the copy of the registration. It is my conclusion that a four digit year insert ending in "08" was modified by cutting off the first two digits and reinserting the "08" upside down into the postal cancellation stamp to indicate a year of "80". The only four digit year ending in "08" I felt that would be reasonably available would be a "2008" year insert.
16. On the copy of the computer screen printout received under the FOIA I noticed that there was a line marked DLN and the number of "8089 708 0632". I also noted that on the copy of the Selective Service registration card there was a similar number in the upper right hand corner. This number was "0897080632". The number on the registration card appeared to be a "Bates" type print that automatically changes with each impression.
17. The differences between the DLN number on the computer screen printout and the registration card printout appears to be the addition of the digit "8". I know of no reason for the addition of the "8" in the DLN.
18. Based on my observations, research, experience and training, it is my belief that the Selective Service registration card I received under the Freedom Of Information Act request under the name of Barack Obama has been altered.

Jeffery Stephen Coffman

Sworn to me and subscribed before me this

2nd day of January 2013.

State of Arizona)
) ss.
County of Maricopa)

AFFIDAVIT

I, the undersigned, being first duly sworn, do hereby state under oath and under penalty of perjury that the facts are true:

1. I am over the age of 18 and am a resident of Arizona. The information contained in this affidavit is based upon my own personal knowledge and, if called as a witness, could testify competently thereto. I am the duly elected Sheriff of Maricopa County, Arizona, and I have been a law enforcement officer and official, in both state and federal government, for 51 years.
2. In August of last year, a group of citizens from the Surprise Arizona Tea Party organization met with me in my office and presented a petition signed by approximately 250 residents of Maricopa County, asking if I would investigate the controversy surrounding President Barrack Obama’s birth certificate authenticity and his eligibility to serve as the President of the United States.
3. This group expressed its concern that, up until that point, no law enforcement agency in the country had ever gone on record indicating that they had either looked into this or that they were willing to do so, citing lack of resources and jurisdictional challenges.
4. The Maricopa County Sheriff’s Office is in a rather unique position. Under the Arizona Constitution and Arizona Revised Statutes, as the elected Sheriff of Maricopa County, I have the authority to request the aid of the volunteer posse, located in the county, to assist me in the execution of my duties. Having organized a volunteer posse of approximately 3,000 members, I, as the Sheriff of the Maricopa County Sheriff’s Office, can authorize an investigation go forward to answer these questions at virtually no expense to the tax payer.
5. The Cold Case posse agreed to undertake the investigation requested by the 250 citizens of Maricopa County. This posse consists of former police officers and attorneys who have worked investigating the controversy surrounding Barack Obama. The investigation mainly focused on the electronic document that was

presented as President Obama's long form birth certificate to the American people and to citizens of Maricopa County by the White House on April 27, 2011.

6. The investigation led to a closer examination of the procedures regarding the registration of births at the Hawaii Department of Health and various statements made by Hawaii government officials regarding the Obama birth controversy over the last five years.
7. Upon close examination of the evidence, it is my belief that forgery and fraud was likely committed in key identity documents including President Obama's long-form birth certificate, his Selective Service Registration card, and his Social Security number.
8. My investigators and I believe that President Obama's long-form birth certificate is a computer-generated document, was manufactured electronically, and that it did not originate in a paper format, as claimed by the White House. Most importantly, the "registrar's stamp" in the computer generated document released by the White House and posted on the White House website, may have been imported from another unknown source document. The effect of the stamp not being placed on the document pursuant to state and federal laws means that there is probable cause that the document is a forgery, and therefore, it cannot be used as a verification, legal or otherwise, of the date, place or circumstances of Barack Obama's birth.
9. The Cold Case Posse law enforcement investigation into Barack Obama's birth certificate and his eligibility to be president is on-going. The on-going nature of the investigation is due to additional information that has come to light since we held the press conference in March, 2012. As soon as that information has been properly verified by the Cold Case Posse, I will release that information to the public.

Executed this 12 day of June, 2012, in
Maricopa County, Arizona.

Joseph M. Arpaio, Maricopa County Sheriff

Sworn to and subscribed before me this
12th day of June, 2012.

Lynda Jenise Moreno

AFFIDAVIT

I, the undersigned, being first duly sworn, do hereby state under oath and under penalty of perjury that the following facts are true:

1. I am over the age of 18 and am a resident of Arizona. The information contained in this affidavit is based upon my own personal knowledge and, if called as a witness, I could testify competently thereto. I am a former sworn law enforcement officer and criminal investigator. Since 2007 I have been duly appointed by the elected Sheriff of Maricopa County, Arizona, Joseph Arpaio, as the chief investigator of his Cold Case Posse.
2. Under the Arizona Constitution and Arizona Revised Statutes, the Sheriff has the authority to request assistance from a volunteer posse ("the Cold Case Posse"), a special five-member team of experienced investigators located in the county, to assist him in the execution of his duties. The individually-selected team deputized by the Sheriff includes former police detectives and attorneys who work voluntarily and at virtually no expense to the taxpayer whenever the Sheriff authorizes an investigation to address any issue as the Sheriff deems appropriate.
3. In August 2011, a group of citizens from the Surprise Arizona Tea Party organization called upon the Sheriff in his office and presented a petition signed by approximately 250 residents of Maricopa County, requesting the Sheriff's Department to investigate whether a document posted on the official website of the White House on 27 April 2011 and purporting on its face to be an electronic image of the "long-form" or original Hawaiian birth certificate of President Barack Hussein Obama was genuine.
4. If the image of the birth certificate were not genuine, the question might arise whether Mr Obama had been born within the jurisdiction of the United States and thereby complied with the requirement under Article II of the U.S. Constitution that the President be a "natural-born citizen".
5. The petitioners expressed their concern that, until that point, no law enforcement agency had ever gone on record as indicating that it had investigated or was willing to investigate whether President Obama was eligible to hold his office. The petitioners said that lack of resources and jurisdictional challenges had inhibited any such investigation elsewhere.
6. Sheriff Arpaio commissioned the Cold Case Posse to undertake the investigation requested by the petitioners. The principal focus of the investigation is the electronic document on the White House website that President Obama had presented as the image of his long-form birth

certificate to the American people and to citizens of Maricopa County at a White House press conference on April 27, 2011, when he had said: “We provided additional information today about the site of my birth. ... Yes, in fact, I was born in Hawaii, August 4, 1961, in Kapi’olani Hospital.”

7. For 17 years from 1991 until the year before the Presidential election of 2008, the annually-revised biography written by Mr Obama and circulated by his literary agents had contained the words “Barack Obama, the first African-American President of the *Harvard Law Review*, was born in Kenya and raised in Indonesia and Hawaii.”
8. The official *Parliamentary Debates* of the Kenyan National Assembly for 25 March 2010 records that Mr Orengo, the Minister for Lands, said: “If America ... did not see itself as a multiparty state or nation, how could a young man born here in Kenya, who is not even a native American, become the President of America?”
9. The investigation has closely examined the procedures for registration of births at the Hawaii Department of Health and various statements made by officials of the Hawaii government over the last five years in connection with the authenticity of Mr Obama’s birth records. We have chronicled a series of inconsistent and misleading representations that various officials of the government of Hawaii have made since 2007 on the question what original birth records, if any, are held by the Hawaii Department of Health.
10. In February 2012, I reported to Sheriff Arpaio that there was probable cause to consider that the White House image of Mr Obama’s birth certificate was a forgery, and specifically that it was not a true and accurate photographic image of a genuine birth record. I advised the Sheriff that the forgers had probably committed two crimes: first, fraudulently creating a forgery that the White House had characterized, knowingly or unknowingly, as an officially-produced governmental birth record; and secondly, fraudulently presenting to the residents of Maricopa County and to the American public at large a forgery that the White House had represented as “proof positive” of President Obama’s authentic 1961 Hawaiian long-form birth certificate.
11. These conclusions were reinforced by input from numerous experts in the fields of typewriting, typesetting, computer-generated documentation, forensic document analysis and Adobe computer programs, as well as comparisons with numerous other birth records and expert reviews of Hawaii state law and of the regulations, policies and procedures of the Hawaii Department of Health.

12. The investigation further determined that the Hawaii Department of Health has engaged in what the Sheriff's investigators believe is a systematic effort to hide from law enforcement and the public whatever original 1961 birth records the Hawaii Department of Health may have in its possession. The Posse also accumulated evidence that the Hawaii government and its agencies had changed their policies and procedures in a manner calculated to hinder our law-enforcement investigation.
13. In furtherance of the investigation, which has now continued for more than a year, I have twice visited Hawaii within the last six months. On the first occasion, a Maricopa County Sheriff's Office Detective and I presented our credentials to the offices of the Hawaii Department of Health and requested to speak to Mr Alvin Onaka, the chief registrar of births, a simulacrum of whose signature-stamp had appeared on the electronic document on the White House website. We had hoped to ask Mr Onaka if he would verify the authenticity of the White House released document and to verify the legitimacy of the registrar's stamp bearing his signature. Additionally we hoped to ask him to allow us, for law-enforcement reasons, to inspect the original document and, in due course, to subject it to forensic examination.
14. However, when we presented our credentials at the front desk of the Hawaii Department of Health, much to our amazement we were informed that Mr Onaka does not speak to the public. We explained that we were there on official business. Nevertheless, we were not permitted access to Mr Onaka.
15. At our insistence we did have an opportunity to speak with Deputy Attorney General Jill Nagamine. During our meeting Ms. Nagamine refused to verify the authenticity of the PDF file released by the White House. As a matter of fact Ms. Nagamine would not provide us with any confirmation that the document was created by the Hawaii Department of Health.
16. Ms. Nagamine accused us of trying to get a verification of a birth record without legal authority to do so, even though the document has been offered for public view via the World Wide Web. She constantly evaded answering every question about the legitimacy of the document by hiding behind State statutes.
17. We also visited the Kapi'olani Hospital, which the document on the White House website identifies as the place of Mr Obama's birth. We had discovered as a result of our enquiries that the hospital, at the relevant time, had maintained a separate record-keeping system by which all births at the hospital were recorded. This document is stored in the hospital archives. These archives are accessible to the public by hospital

permission. We asked to see the hospital's birth records for 1961 but were less than politely refused. At no time did Kapi'olani Hospital ever confirm that Mr Obama was in fact born in the hospital. Nor did they confirm that they were in possession of his birth records.

18. Having regard to the elaborate non-cooperation we received from the State of Hawaii, and upon close examination of the evidence, it is my investigational opinion, shared by the Sheriff, that forgery and fraud have been committed in key identity records, including President Obama's long-form birth certificate; his computerized short-form birth abstract; his Selective Service Registration card.
19. The Cold Case Posse has also noted that Mr Obama's first Executive Order, issued on his first full day as President, was to seal all of his own past records from public scrutiny. Documentation that is not available for Mr Obama includes not only his original birth records but also his baptism records, his adoption records, his kindergarten records, his Punahou school records, his Occidental College records, his Columbia University records, his Columbia University thesis, his Harvard Law School records, his Harvard Law Review articles, his scholarly articles from the University of Chicago, his passports, his medical records, his files from his years as an Illinois State Senator, and his Illinois State Bar Association records.
20. The then Republican Governor, Linda Lingle, stated during an interview on New York's WABC radio in 2008 that in an attempt to quell the Birth Certificate issue she had the Birth Certificate inspected by the state's director of health, Chiyome Fukino.
21. Lingle is quoted "So I had my health director, who is a physician by background, go personally view the birth certificate in the birth records of the Department of Health, and we issued a news release at that time saying that the president was, in fact, born at Kapi'olani Hospital in Honolulu, Hawaii. And that's just a fact and yet people continue to call up and e-mail and want to make it an issue and I think it's again a horrible distraction for the country by those people who continue this."
22. On October 31, 2008, Dr. Chiyome Fukino released the following statement: "There have been numerous requests for Sen. Barack Hussein Obama's official birth certificate. State law (Hawai'i Revised Statutes §338-18) prohibits the release of a certified birth certificate to persons who do not have a tangible interest in the vital record. Therefore, I as Director of Health for the State of Hawai'i, along with the Registrar of Vital Statistics, who has statutory authority to oversee and maintain these type of vital records, have personally seen and verified that the Hawai'i State Department of Health has Sen. Obama's original birth certificate on record

in accordance with state policies and procedures. No state official, including Governor Linda Lingle, has ever instructed that this vital record be handled in a manner different from any other vital record in the possession of the State of Hawai'i."

23. Months later, in July 2009, she added another comment: "I, Dr. Chiyome Fukino, Director of the Hawaii State Department of Health, have seen the original vital records maintained on file by the Hawaii State Department of Health verifying Barack Hussein Obama was born in Hawaii and is a natural-born American. I have nothing further to add to this statement or my original statement issued in October 2008 over eight months ago."

Significantly, Fukino changes the wording from viewing Sen. Obama's "original birth certificate" to having "seen the original vital records maintained on file by the Hawaii State Department of Health, verifying Barack Hussein Obama was born in Hawaii and is a natural-born American".

24. The Governor of Hawaii, Mr Neil Abercrombie, has said that he was present when Mr. Obama was born. Later, however, he retracted that statement and acknowledged that he did not see Obama's parents with their new born son at any hospital, although he said he remembers seeing Obama as a child with his parents at social events. There is no evidence to support that claim. No doctor or nurse who attended his birth has come forward to say so.
25. Abercrombie told the Honolulu Star Advertiser he was searching within the Hawaii Department of Health to find definitive vital records that would prove Obama was born in Hawaii, because the continuing eligibility controversy could hurt the president's chances of re-election in 2012.
26. Abercrombie said the birth certificate issue would have "political implications" for the presidential election "that we simply cannot have."
27. Abercrombie did not report to the newspaper that he or the Hawaii Department of Health had found Obama's long-form, hospital-generated birth certificate. The governor only suggested his investigations to date had identified an unspecified listing or notation of Obama's birth that someone had made in the state archives.
28. Abercrombie did not say to the newspaper that he or the Hawaii Department of Health had found Obama's long-form, hospital-generated birth certificate. Nor did he say to the newspaper he had personally seen any birth record for Obama. The governor only suggested his investigations to date had identified an unspecified listing or notation of Obama's birth that someone had made in the state archives.

29. "It was actually written, I am told, this is what our investigation is showing, it actually exists in the archives, written down," Abercrombie said.
30. Conceivably, the yet-undisclosed birth record in the state archives that Abercrombie said had been discovered may have come from the grandparents registering Obama's birth, an event that would automatically have triggered both the newspaper birth announcements and availability of a Certification of Live Birth, even if no long-form birth certificate existed.
31. Our investigation has revealed that in 1961, as Hawaiian law then stood, Obama's grandparents, Stanley and Madelyn Dunham, could lawfully have made an in-person report of a Hawaiian birth even if the infant Barack Obama Jr. had been foreign-born.
32. The newspaper announcements of Mr Obama's birth do not prove he was born in Hawaii, since they could have been triggered by the grandparents registering the birth as Hawaiian. They might then have paid for the announcement themselves.
33. However, we have learned that it was not uncommon for local newspapers to publish birth announcement paid for by individuals reporting the birth in the local paper, even if the child was born elsewhere. If so, the registration of an out-of-country birth as Hawaiian would have been reported in the same way as the registration of an in-country birth. Neither of the two advertisements states that Obama was born in a particular hospital. Both give very limited information.
34. To date the purported undisclosed birth record in the state archives that Abercrombie has claimed to have discovered and has described as being "actually written" has never been made public. Being located in the state archives, this document should be available for inspection by the general public without restraint.
35. From Abercrombie's admission, it is legitimate to infer that this record, if it indeed exists, was not in the possession of the Hawaii Department of Health, which may have had no record of the in-country birth of Mr Obama either in hard copy form, such as long form birth certificate, preserved in its vault as described by Dr. Chiyome Fukino. If such a document had existed, Abercrombie would have had it within minutes of his request.

36. Mr Obama's long-form birth certificate would have been preserved in a hard-covered bound volume along with the other long form birth certificates of that period. This record would have been easily accessible to the Department of Health upon the Governor's request, had it existed.
37. Dr. Chiyome Fukino also gave an interview to CNN on April 26, 2011, in which she stated that she simply went into the vault and inspected Obama's original Birth Certificate. Inferentially, it should have been that easy for Governor Abercrombie to locate it as well.
38. This circumstance also suggests that the birth record of Mr Obama was not at that time recorded in the Department of Health's computerized database that has been in use since 2001.
39. In March 2012, Sheriff Arpaio held a Press Conference during which he and I presented an outline of those aspects of the investigation that would not compromise the safety of witnesses or the integrity and future course of the investigation. At that time, we had concluded that there was probable cause that forgery and fraud had been committed in respect of four documents: the long-form or original birth certificate for Mr Obama, which contained multiple errors and anomalies, many of them serious; the short-form computer-generated abstract of Mr Obama's birth record that the Democratic Party had published in 2007, which was printed using a form of words not current at the relevant date; the selective-service document for Mr Obama, which contained a two-digit year-stamp contrary to specifications written by the Department of Defence to the effect that the year of issue should be expressed as four digits on the stamp, and contrary to any other selective-service registration document that we have been able to examine; and we are aware that the social security number, which has a prefix that at the date of issue was unique to Connecticut even though Mr Obama has never resided in that State.
40. In an attempt to verify whether Mr Obama and his mother had arrived in the United States at or around the alleged date of his birth, we contacted the National Archives to obtain microfilms of the I-94 immigration landing records for the year 1961. All such records were and are available for the entire year 1961, except for those on the alleged date of Mr Obama's birth (August 4), three days before that date, and three days after that date. The Archivist and his staff did not tell us how the missing records had come to be lost, and offered no hope that they would ever come to light.
41. After three months of further investigation, the Sheriff held a second press conference to announce, with my support, that it was no longer a question of probable cause: it was now certain that the document on the White

House website was a forgery. The Sheriff also announced that the investigation would continue: and it has continued ever since.

42. The purpose of holding press conferences was and is to notify the public that an investigation is in progress, with the aim of obtaining additional information that might be helpful to the investigators in reaching the truth. As a result of both press conferences, additional material of this kind became available to us.
43. Our investigation concludes that President Obama's long-form birth certificate is a computer-generated document; that it was manufactured piecemeal and electronically; and that it did not originate as a copy of a true paper record from a bound volume, as claimed by the White House and by the Governor of Hawaii and by the director of the Health Department, cited in a press release issued April 27, 2011, by the Governor to coincide with the publication of the document on the White House website.
44. Most importantly, the "registrar's stamp" in the computer-generated document released by the White House and posted on the White House website may have been imported from another unknown source document. The fact that the stamp cannot have been placed on the document pursuant to state and federal laws is one of many indications that the document is a forgery and, therefore, that it cannot be relied upon as verification, legal or otherwise, of the date, place or circumstances of Mr Obama's birth.
45. The Registrar's date-stamp exhibited a similar grave anomaly, allowing it to be moved about electronically within the document – which would have been impossible if the document were the scanned and certified copy that official statements profess it to be. The Registrar's signature-stamp and date-stamp were computer-generated images that were imported into the document. They were not electronic images of actual rubber-stamp imprints inked by hand or machine on to a paper document. Accordingly, the document on the White House website is, at a minimum, misleading to the public in that it has no legal import and cannot be relied upon as a legal document carrying the full faith and credit of the State of Hawaii and verifying the date, place and other circumstances of Mr Obama's birth. A photograph of the Registrar's date-stamp is exhibited and marked "MZ2".
46. These and numerous other errors and anomalies observed after extensive forensic scrutiny of the electronic image downloaded from the White House website were inconsistent with features to be expected when a paper document is placed on the glass plate of a scanner so that it can be captured as an electro-photographic image, or when it is scanned and then

processed either to enhance the clarity of the image by optical character recognition or to reduce file-size by file-compression or optimization.

47. Furthering the investigation, I returned to Hawaii for a second time. I met Mr Duncan Sunahara, the brother of Virginia Sunahara, an infant born in Hawaii on August 4, 1961, the alleged date of Mr Obama's birth there. Ms Sunahara died the following day, August 5, after breathing difficulties. When I met Mr Sunahara he had recently applied to the Department of Health in Hawaii for a copy of his deceased sister's birth certificate. He told me the Department had gone to great lengths to deny him a copy of the original long-form birth certificate that a close relative is entitled by law to request and the Department is obliged by law to supply. The Cold Case Posse is compelled to consider the question why this little girl's 1961 long-form birth certificate was so disconcerting to the Hawaii Department of Health that it did not wish to issue a copy to Mr Sunahara upon request.
48. I obtained from Mr Sunahara a copy of proceedings in the Circuit Court of the First Circuit, State of Hawaii, in which the Deputy Attorney General, Ms Nagamine, appeared before Judge Rhonda Nishimura on March 8, 2012, to argue that Mr Sunahara was not entitled under Hawaiian statute law to see, still less obtain, a certified copy of his deceased sister's original 1961 long-form birth certificate.
49. During the proceedings, the Attorney General implied that Mr Sunahara's request arose from an underlying interest in obtaining evidence that might assist in determining whether the document on the White House website is indeed a forgery. Ms Nagamine said Mr Sunahara ought to be satisfied with a short-form extract of the birth record rather than a long-form printed image of the original copy in the bound volume for 1961 in the vaults of the Health Department.
50. Ms Nagamine also said that the entire volume of birth certificates inferentially containing not only Ms Sunahara's long-form original birth certificate but also those of twins born at about the same date had been removed to a special, secure location with very limited access. I do not know what purpose the Department of Health had in preserving these records at all, unless it was to show them upon request to family members and others – such as law enforcement – with a legitimate and statutory interest in seeing the documents.
51. Ms Nagamine said that accessing the original birth records was difficult and expensive. However, in Dr. Chiyome Fukino's interview with CNN she stated that she simply went into the vault and inspected Obama's original Birth Certificate. I am told by Mr Sunahara that he was willing to pay any reasonable fee to cover the cost. Our investigation indicates that the

Health Department's fee is not great: attorneys for Obama had paid \$10 for a certified copy and \$4 for a second certified copy. Inferentially, such small fees are an indication that the difficulty of consulting the archives and generating certified copies is not great. And I have come across further evidence that the difficulty of consulting the records is not very great: for they are normally kept in bound volumes on specially-designed shelves known to librarians as "stacks". A picture of Mr Onaka pulling out a book of birth records from 1972, just nine years after the year that is of interest to our investigation, shows how small the difficulty in consulting the records is likely to be. The photograph is marked "MZ1", annexed and signed as relative hereto.

52. The reason why law-enforcement investigators wish to examine the original long-form birth certificate of Ms Sunahara relates to the practice of the Health Department to number each birth certificate sequentially with the last two digits of the year followed by a five-digit number incremented sequentially by a date-stamp that advanced the counter by 1 after every stamping. At that time, approximately 48 births occurred every day in Hawaii, and were required to be registered. They were sequentially stamped in order of date of birth.

53. Photostat images of the long-form original birth certificates of twin daughters born to Eleanor Nordyke at Kapi'olani Hospital August 5, 1961, one day after the alleged birth of Mr Obama at the same hospital, have been drawn to the Cold Case Posse's attention. They had been published in the Honolulu Advertiser. As a result of examining these images, the Cold Case Posse has reason to suspect that the sequential number on the computer-generated short-form abstract that the Health Department released to the family is not the same as that which appears on the long-form original birth certificate that was issued for Ms Sunahara.

54. Examination of the birth certificates issued to the parents of the Nordyke twins shows that their registration numbers,, 61/10637 and 10638, preceded the number on Mr Obama's short-form and long-form certificates, which is shown as 61/10641, even though he was born a day earlier than they were. Ms Sunahara was born August 4, 1961, and her certificate was stamped by the Hawaii registrar August 8, but her number was 11080. The table summarizes the position:

Name of child	Date and time born	Registered	Certificate #
Barack Obama	Aug 4 at 7:24 pm	Aug 8	10641
Virginia Sunahara	Aug 4 at 9:16 pm	Aug 10	11080
Susan Nordyke	Aug 5 at 2:12 pm	Aug 11	10637
Gretchen Nordyke	Aug 5 at 2:17 pm	Aug 11	10638

55. Mr Obama's birth certificate was registered August 8, 1961. The Nordyke twins' birth certificate was registered August 11, 1961. Even if the sequential numbering had followed the date of registration rather than the date of birth, Mr Obama's certificate should have been automatically assigned a number lower, not higher, than the numbers allocated to the certificates of the Nordyke twins. And the number currently assigned to Ms Sunahara is entirely out of sequence.
56. One possible explanation for the out-of-sequence serial numbers might have been that several serialized piles of birth certificates were registered at different hospitals. However, Ms Verna K. Lee, an official responsible for the recording of births in Honolulu in 1961, when interviewed by a reporter for wnd.com, said that this was not the case. Ms Lee was the local registrar who apparently signed the document on the White House website (it is possible that the forgers lifted her signature from another birth certificate and inserted it electronically into the computerized compilation that is now on the White House website).
57. Ms. Lee was surprised that the numbers were out of sequence. Ms. Lee made recorded statements to a WND reporter during a phone interview. I have personally listened to those recordings. On the recorded conversation Ms. Lee said that all of the birth certificates received in a month were ordered chronologically by date and time of birth and numbered sequentially at the end of each month. The only exception – not relevant in the present case – was that birth certificates received from the islands and from one local out-station in Oahu were grouped separately, so as not to under-represent births outside Honolulu or unattended births occurring at home in the 50% statistical samples by which only even-numbered births were reported to the Federal Government as mandated by the U.S. Office of Vital Statistics.
58. Ms Lee has said that birth certificates from the hospitals in Oahu were sent directly to the central office of the Department of Health in Honolulu. The birth certificates were all numbered at the end of each month by one person. When Ms Lee was asked whether there might have been mistakes in numbering the birth certificates, she insisted that they were numbered correctly and in sequence. The long-form original certificates were inspected twice for accuracy by two different clerks and then signed by the registrar. They were kept together secured in a certain room until they were all numbered at the end of the month. They were not allowed to become out of order and they were not numbered incorrectly. (It should be noted that the Nordyke twins were born minutes apart and their respective certificate numbering was based not only on date but on time as well. This indicates the clerk scrutinized the documents prior to placing them in chronological order for proper numbering.) Based on Ms Lee's representation, I consider it highly unlikely that a birth certificate so far

out of sequence as that which now appears on Ms Sunahara's short-form birth abstract could have been accepted at a registrar's office managed by Verna K. Lee.

59. It is also possible that investigators are being misled into devoting attention to the number on Ms Sunahara's original long-form birth certificate, which may after all turn out to be different from that of Mr Obama and identical to that which appears on her short-form computer abstract. For that reason among others, investigators would like to inspect and, in due course, forensically to examine the volumes of long-form certificates for 1961, and specifically the long-form original birth certificates for Mr Obama, for Ms Sunahara, and for the Nordyke twins.
60. A possibility that the investigators are constrained to bear in mind, given the numerous other defects in the document on the White House website, is that the number on that document is not a genuine registration number assigned to his birth certificate in 1961, but was issued when the short-form document was generated during the 2008 presidential campaign. It is possible that the Health Department does not want the public to see the original 1961 birth records because forensic examination might establish that the forgers had made a mistake in assigning to the forged long-form document on the White House website a number that was out of sequence and that may (or may not) be identical with the number on the long-form original birth certificate of Ms Sunahara. This is one reason why the investigators have asked to see the original bound volumes from the stacks.
61. I am additionally concerned that the Hawaii Department of Health has not offered any testimony that the modern computerized data now used to generate the short-form abstracts have been safeguarded from numerical or other data manipulation. All that the Attorney General of Hawaii offered to the Maricopa County Sheriff's Office as proof that Mr Obama was born in Hawaii was a computer-generated list of birth registrations that was contained in a ring-binder. Pages could easily be removed, added, or removed, altered and reinserted at will. There was no level of security other than closing the rings of the binder holding the pages together.
62. The investigators have obtained an affidavit from an individual who went to the Department of Health when some of the first questions were being raised about Mr Obama's birth certificate. That individual states that when he first went to the main office of the Hawaii Department of Health in Honolulu, Mr Obama's name did not appear in the computerized registration list in the ring binder, but when he went back approximately 14 days later to re-examine the same list he was surprised to see that Mr Obama's name now appeared on it.

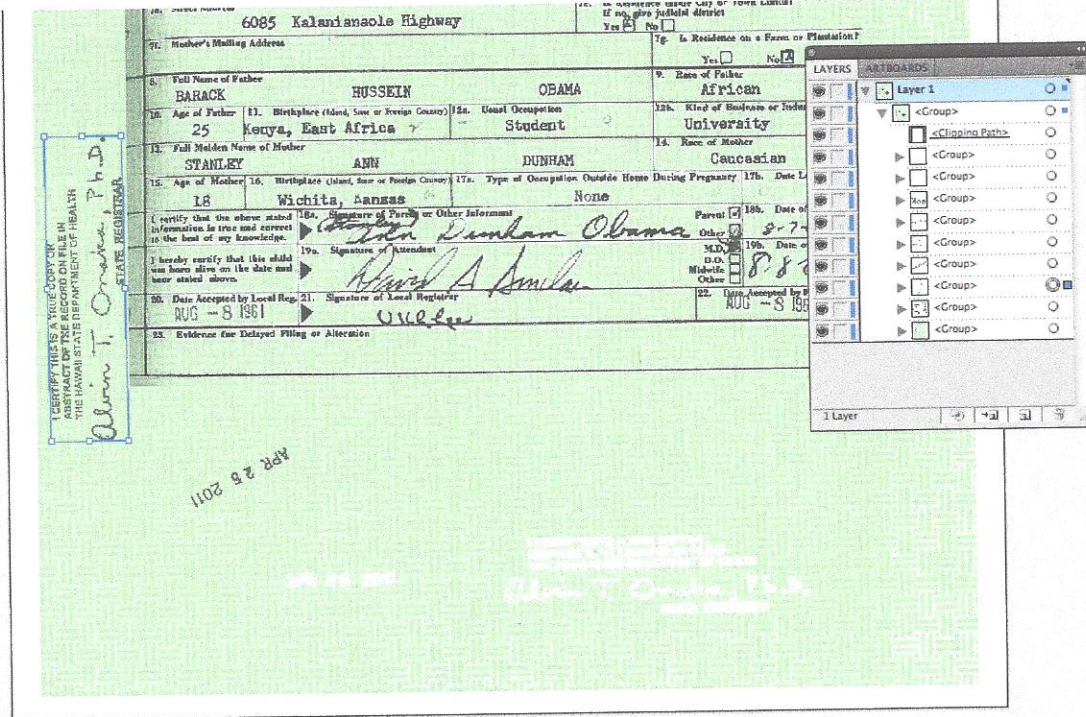

63. Notwithstanding this affidavit, it is plausible that an original birth record for Mr Obama exists in Hawaii. Our investigation has discovered that at that time Hawaiian law contained a specific provision that permitted a Hawaiian parent of a child born anywhere in the world or any adult purporting to represent that parent, the right to register the child as Hawaiian-born. It is for this reason that two entries in the "Births" column of the local newspapers at the time do not constitute evidence that Mr Obama was born in Hawaii. They are merely evidence suggesting that a birth certificate was issued for him in Hawaii, and they tell us nothing about whether or not he was born there. In particular they do not – as the White House document purports to do – identify the hospital of birth.
64. If Mr Obama had not in fact been born in Hawaii, the long-form original birth certificate would not have stated that he had been born in a particular hospital at a particular time, and would not have borne the signatures of the attending physician and registrar. The newspaper entries would have been identical whether he had been born in Hawaii or elsewhere in the world; but the birth records would not have been identical.
65. The existence of this law permitting out-of-country births to be registered as though they were Hawaiian births is a further reason why the Sheriff wishes his forensic investigators to be given access to the original bound volumes of birth certificates for 1961, and to be permitted to carry out forensic scrutiny of the volumes and of certain individual certificates, including that of Mr Obama.
66. For these reasons, it is necessary for the investigators to bear in mind the possibility that the intention of the Hawaii Department of Health in refusing to allow Mr Sunahara to have a certified copy of the original birth certificate of his deceased sister is to conceal forgery and fraud within the Department itself.
67. The Cold Case Posse's law-enforcement investigation into Mr Obama's birth certificate continues, taking account of the additional information obtained both as a result of the Cold Case Posse's own enquiries and as a result of assistance from the public following the publication of some of our results by the Sheriff at the March and July 2012 press conferences.
68. The law-enforcement investigation by and on behalf of the Sheriff of Maricopa County, Arizona, would be greatly assisted, and could be brought swiftly, inexpensively, and decisively to an end, if the Department of Health and the management of the Kapi'olani Hospital were willing to allow court-recognized forensic experts selected by the Sheriff of Maricopa County to inspect and forensically examine the volumes of long-form

MZ 1

This is the photograph of Mr Onaka withdrawing a bound volume of long-form original birth certificates for 1972 from the stacks at the Department of Health in Hawaii, referred to in my affidavit in *Sunahara v. Hawaii*. The source of the photograph is an interview of Rasa Fournier with Mr Onaka, entitled *Keeping the Records Straight*, published at midweek.com, November 16, 2011.

MZ2

This is the image, referred to in my affidavit in *Sunahara v. Hawaii*, of the “long-form birth certificate” for Mr Obama, with the registrar’s signature-stamp and, separately, the registrar’s date-stamp moved from their original locations on the “certificate”, which are indicated by white ghost images towards the foot of the green security paper on to which the fabricated document had been electronically superimposed. That the registrar’s date stamp and the registrar’s text/signature stamp were both created by links to external objects imported into the Obama birth certificate was also confirmed by turning on the “Links” option in the “Window” menu in Adobe Illustrator. The inset image at top right is the list of links that appears when that option is activated. Evidence that the two registrar stamps are external objects imported into the Obama “birth document” can be seen in that the registrar’s date stamp and text/signature stamp can easily and separately be electronically moved, rotated at will, turned sideways or even upside-down, and repositioned anywhere on the document. None of several hundred software suites designed for the automated optical-character recognition, image enhancement, file compression, or optimization of an electro-photographic image of an original paper document that were studied and tested by expert consultants to the investigative team was capable of processing the electronic data representing the image in such a manner as to store the data representing either of the two stamps on a single “layer” so as to allow the stamps to be moved about at will.

Affidavit

I, Douglas B. Vogt, am over 18 years old, do not suffer from any mental impairment, have personal knowledge in the following and attest under penalty of perjury that I have knowledge and expertise in documents, imaging, scanners and document imaging programs. Based on my knowledge and expertise the following is true and correct.

The reason I have issued this affidavit and notified the FBI and other government officials is because I am compelled to because of Federal Statute Title 18, Part 1, Chapter 1 Section 4: "Misprision of felony; Whoever, having knowledge of the actual commission of a felony cognizable by a court of the United States, conceals and does not as soon as possible make known the same to some judge or other person in civil or military authority under the United States, shall be fined under this title or imprisoned not more than three years, or both." Since I am the one who positively identified Obama's Certificate of Live Birth, presented to the American public on April 27, 2011, as a forgery it was my obligation to report it.

My Credentials

I have a unique background that enables me to analyze this document in a competent, detailed, and extensive manner. I owned a typesetting company (Nova Typesetting) for eleven years, and thus have extensive knowledge and experience in type and form design. I have owned Archive Index Systems since 1993, a company that sells a wide selection of document scanners worldwide, and which also developed and sold document imaging software (TheRepository). Additionally, I have an extensive knowledge of how scanners function and their capabilities. I have also sold other document imaging programs, such as Laser Fiche, Liberty and Alchemy. I have sold and installed document imaging systems in city and county governments, and thus have extensive knowledge of municipal and county document imaging programs and procedures, including the design and implementation of such programs. Additionally, I have a good working knowledge of Adobe Photoshop and Illustrator. These factors will be crucial in understanding what has occurred with Obama's Certificate of Live Birth.

What I Discovered about Obama's Certificate of Live Birth and why it is a Forgery.

What the Obama administration released is a PDF image that they are trying to pass off as a Certificate Live Birth Long Form printed on green security paper by the County Health Department in Hawaii. The form is a created forgery for the following reasons.

Figure 1. Tiff image of the Obama's Certificate of Live Birth dated August 8, 1961, presented on TV 4/27/2011.

Figure 2. Another Person's microfilmed Certificate of Live Birth dated August 11, 1961.

1. Curved and non-curved type. The image we are looking at was scanned in grayscale and some part in binary which cannot be on the same image. The reason I know this is because of the shadowing along the gutter (left-hand side) is produced by scanning in grayscale. It also means that the county employee, who did the original scanning of all the forms, did not take the individual pages out of the post binders. The result is that all the pages in that book display a parallax distorted image of the lines and type. They curve and drop down to the left. If you look at line 2 (see Figure 3) on the form that says *Sex* you will notice the letters drop down one pixel but the typed word *Male* does not. Also notice the line just below *Male* drops down 3 pixels.

Figure 3. Line 2 of the form. Baseline differences.

The second incident of this parallax problem is seen in line 6c *Name of Hospital or Institution* (see Figure 4). The word *Name* drops down 2 pixels, but the typed hospital name, *Kapiolani*, does not drop down at all, and again the line just below drops down 2 pixels, but not the name *Kapiolani*.

Figure 4. Line 6c at 500%. The typewriter name of the hospital does not drop down 2 pixels.

The conclusion you must come to is that the typed in form was superimposed over an existing original Certificate of Live Birth form. In fact, since I found some of the form headings scanned in as binary and grayscale, the form itself is a composite but the person who created it did not flatten the image of the blank form and save it as one file before they started placing the typewriter text on the composite form. The individual(s) who perpetrated this forgery could not evidently find a blank form in the clerks imaging database, so they were forced to clean up existing forms and overlay the typewriter type we see here. The forger was also looking for certificates with the correct stamped dates and that is why I think they used more than one original form. At first I wondered why the forger didn't just typeset the entire form from scratch and overlay the type and not have to worry about the parallax problem. Then I remembered that in the early 1960s there was no phototypesetting and this form was set in hot metal from a linotype machine. The type design I think is Times Roman but they could never replicate the exact design. They were stuck having to use existing forms that were scanned in using binary and grayscale.

2. There is a white haloing around all the type on the form. Figure 5 is an example of this. This effect should not appear on a scanned grayscale image. Figure 6 is a grayscale image scanned in at 240 dpi. You will notice that there is no haloing effect around the type and also the security pattern is seen through the type. Figure 7 is a color image where you can clearly see the security green color through the type and no haloing. Figure 8 shows a Black and White (binary) image of the same type. The important thing to remember is that you cannot have grayscale and binary on the same scan unless the image is a composite. That means that different components of the whole image are made up of smaller parts. Figure 9 is an enlarged version of Figure 6 showing what grayscale letters should look like compared to binary.

Figure 5. Obama's form

Figure 8. Binary image. Figure 9. An enlarged version of Figure 6 showing grayscale type.

The next question would be: What would have caused the haloring effect? We know that all the original Certificates of Live Birth (COLB) were microfilmed because we can see the Nordyke Certificate (see Figure 2) was microfilmed. Then some time after 2004 the paper original copies, in post binder books, were scanned using a commercial document scanner with a flatbed, scanned as grayscale images. The forger was working with two types of images. He/she may have used images printed from the microfilmed copy and then scanned the printout in grayscale. At that point the forger would have to invert the image so as to have a white background, black type. Figure 10 is an example of an inverted image of Figure 2. The result would be like Figure 9 but a whiter background. The image I am working with in Figure 10 is only 94 DPI but the forger was working with much higher resolution (≥ 240 dpi). At that point the forger converted the grayscale to a binary image and placed it onto the background form image. The problem was that there were still image values for the pixels around the placed type so when he/she placed the type image over the background and instructed the program to bring the type “forward” it blanked out the background image, hence the haloring effect around the type.

Figure 10, Inverted image of Figure 2.

3. The Obama Certificate is loaded with both binary and grayscale letters which is just another smoking gun that this form is a forgery. It appears the lines and some of the boxes were scanned using grayscale, but only some of the form headings were grayscale and sometimes it is only some letters. Figure 11 and Figure 4 give one example. You will notice that the *H* and, *al*, in Hospital, *I* in Institution, *If* and again the *h* and *l* in hospital were grayscale images, but the rest of the line is binary. The typewriter line below was scanned in as a binary image. I can also tell you for certainty

that the form type was scanned in at a lower resolution (≤ 200 dpi). This is because of the size of the pixels on the letters were such that the openings on the *a* and *s* on the first line are not visible and filled in. This may also further indicate that forger took some of the type images from the microfilmed copies.

Figure 11. showing a mixture of grayscale and binary type on the same line.

Another example is found in form box 1a, his name *BARACK* for some reason the “R” is a grayscale image and the rest is binary (see Figure 13). That means the “R” was originally on the form and the rest was not until it was added.

The question again is: Why did the forger leave some grayscale type images on the form and not just erase the whole form? The answer is that he/she needed the grayscale images to re-establish the baseline of the type for the superimposed binary type. This also told me that the forger was an experienced graphic artist.

Figure 13. Another example of grayscale and binary on the same line.

Figure 14. The last “1” is grayscale, but the rest are binary.

Another example is the Certificate number itself (see Figure 14). The last “1” on the form is a grayscale image but the rest of the numbers are not. It also has a different baseline. This is just another example of a cut and paste job. It also means we do not know what the real Certificate number is if there even is one. There are other form boxes that display the same feature, boxes: 5b, 7e, 11, 13, 16, 18a.

4. The Sequential Number is a fraud. I would like you to refer back to Figures 1 and 2. You will notice that Barack Obama was supposed to have been born on Friday at 7:24 p.m. August 4, 1961 and the local registrar supposedly accepted it on Tuesday August 8, 1961 and hand stamped the Certificate number “61 10641.” Then notice that the other Certificate of Susan E. Nordyke was born on Saturday at 2:12 p.m. August 5, 1961 and another registrar date stamped it on August 11, but her Certificate number is “61 10637.” Susan Nordyke was a twin and her sister’s Certificate number is 61 10638. Keep in mind there would be only one Bates stamp machine in the office so the numbers would all be unique. There cannot be any duplicates so every Certificate has a unique serial number.

Obama's Certificate would have most likely been mailed on the following Monday, the 7th and received by the Clerk Tuesday the 8th. Susan Nordyke and her sister's Certificates looks like they were mailed sometime earlier that week and not accepted until the 11th but Susan has a Certificate four numbers less than Obama's. It is impossible to have Obama's Certificate number to be four numbers higher than a Certificate that came in three days later.

As stated in #3 the last "1" on the form is a grayscale image but the rest of the numbers are not (see Figure 14). You will also notice that the baseline of the last "1" is straight and level but the rest of the numbers are slanted. This is again irrefutable proof that the Certificate number is a composite of two numbers and hence a forgery. This forgery comes under a separate offense and carries with it 5-years in prison [see Appendix D: Title 19, Ch.47, Sec, 1028(d)(1)].

The facts I have shown you in #3 and 4 tell me several things about how this forgery was assembled. 1. Some person(s) in the Health Department, who had access to the document imaging program, searched the database for someone close to the actual birth date of Obama and found someone near the 4th of August, if in fact he was born on the 4th and we should not assume that at all. Obama may have chosen the 4th of August because they had a baby who died close to his date of birth. The clerk may have cross referenced the death database to find someone who had died and had a birth date close to Obama's. It has been reported that an infant girl named Virginia Sunahara was born on August 4, 1961 at Wahiawa Hospital in Wahiawa, Oahu, HI who died on August 5, 1961 at the Kapiolani Women and Children's Medical Center, due to complications. This happens to coincide with the date of birth and birthplace of the Nordyke twins. We could make two assumptions here. 1. Wahiawa Hospital customarily would have completed the COLB form and mailed it to the County Health Department; and 2. Kapiolani Medical Center would have filled out the death certificate. The other less likely scenario could be that her medical records were transferred to Kapiolani Hospital and they would produce the birth certificate and later the death certificate which was later included in the group of birth certificates that contained the Nordyke twins.

The Federal Government wanted the States to cross reference the birth and death databases so the database would have that information. The date stamps have two different colors and sizes (see #5 below) which indicates that both dates came from different Certificates. We can conclude from this that more than one person was involved in the Hawaii Department of Health in assembling the different components that were used: 1. Someone to conduct the database searches to find the right Certificates to create the fraudulent Certificate of Live Birth; and 2. Someone who signed or stamped the fraudulent certificate. I believe that after all the components were assembled they were then given to a graphic artist to actually assemble the whole thing and create the finished forgery. That graphic artist could be located anywhere. In short this was a multi-state conspiracy to defraud the United States.

5. Two different colors in Form box 20, 22 and 17a Date Accepted by Reg. General. What is very revealing about this box and date entry is there are two different colors on both lines where there should be no color at all. Both lines were scanned using binary mode, but I see two different colors (see Figure 15). What I think this shows us is that the person who put this fraud together was looking for a form that had the right date namely "August 8 19 1." As you can see the only things that are printed in dark green (R=71, G=92, B=73) are "Date A" and "AUG -8 6." The rest of the type is in black. This tells me that the forger was working in color mode and what they copied from had a color value for some reason unless they put a color value on it.

Figure 15. Two different colors, dark green and black.

The same thing is found in form box 20 “Date Accepted by Local Reg.” Figure 16 again shows that the date has two different colors. The “AUG -8 196” is in dark green (R=87, G=111, B=87) and the “1” is in black. Yet again another irrefutable proof this form is a forgery. Form box 17a displays the same two color image in the word “None”. The “Non” is in dark green.

Figure 16. Another example of two colors on the same line.

6. The official seal is not part of the Certificate of Live Birth and they used the wrong size impression of a seal. The Hawaiian law (Section 11-1-2 Seal of the Department of Health) states:

- a) The official seal of the department of health shall be circular in shape, **two and one-fourth inches in diameter**. At the curve on the top portion there shall be the words “DEPARTMENT OF HEALTH” and at the curve on the bottom portion there shall be the words “STATE OF HAWAII.” At the curve on each side portion shall be a star. In the center of the seal shall be the Caduceus, a winged rod entwined with two serpents, which has long been recognized as a universal symbol of medicine. The Caduceus shall be encircled by an indentation, which shall separate it from the words “DEPARTMENT OF HEALTH” and “STATE OF HAWAII .”

Figure 17, Seal on Obamas Short Form

Figure 18: Nordyke seal from 1966

Figure 19: Obama’s COLB long form Apr.2011

(Figure 19 is courtesy of Kevin Powell; <http://www.pixelpatriot.blogspot.com>)

The first Certification of Live Birth Obama the candidate produced in June of 2008 was the “Short Form” of the COLB. It had the Department of Health’s seal embossed on it (see Figure 17) appearing on it about 1.8” from the bottom of the 11 inch paper. That told me the Health Department is using an electric embosser, which applies ample pressure to leave a clear visible embossment. Hand seal embossers have only 7/8” or less from the edge of the paper for a 1 3/4” seal. The Health Department seal does not appear obvious on the Obama COLB. A good embossment will distort the type and lines on a form and is clearly visible (see Figure 21). Even on the Nordyke Certificate (see Figure 18) in spite of it being an inverted image from a microfilmed image, it is clearly seen. Figure

19 shows Obama’s seal on the COLB presented on April 27, 2011, and is visible only because a color filter was used to see it, otherwise it completely disappears in the design of the security paper (see Figure 20).

Figure 21: Hand stamped seal from an original COLB from 1962.

The official seal on the Obama COLB is a second or even third generation image from another form. The seal embossing did not distort the lines or type on the form and it most likely was never part of his Certificate. We cannot make out any of the type on the seal as well as the two stars and the Caduceus. The distorted background image of a seal can be created using Photoshop or Illustrator by applying it as a watermark. Yet another indication this Certificate of Live Birth is an obvious forgery.

If that wasn’t enough I then investigated the size of the latent seal image on the Obama certificate and found it to measure only about 1 3/4” in diameter. The procedure I used to discover the seal measurements were as follows: With the Savannah Guthrie photo (see Figure A) of the document I was able to see the left and right hand sides of the document and knew that was 8 1/2” wide. I was then able to determine the scale of all the components on the form. I then measured the line length on the second line from the bottom. Box 20, 21 and 22 rest on. That length is 6.396” long, measured from the first bold vertical line on the left side of the form to the end of the line (see Figure 22). I then adjusted all the images I had for Certificates including non-Obama Certificates, which I had. What I found was that the alleged embossed seal on the Obama COLB were all 1 3/4” in diameter and that is not the legal seal as described by Hawaii state law, which should be 2 1/4”. The administration has the wrong size seal on their certificate and that seal was supposed to be a first generation full size imprint.

23. Evidence for Delayed Filing or Alteration		

Figure 22. The COLB Obama presented on 4/27/11 from the PDF file on the White House web site. The seal measured only 1-7/8” in diameter.

I then examined Certificates of other individuals that I found on the internet. Figure 23 is of a Certification short form of Patricia Decosta dated 2002 and it is also 1 3/4”. As stated in the Hawaii state code, it must be 2.25” in diameter. The current Department of Health seal is not the same one they had in the 1960s. That one was 2 1/4” in diameter (see Figure 18) but the current seal is not legal—it’s the wrong size and the type is not legible! You cannot make out any of the words, the stars or the Caduceus. I will be notifying the Department of Health of their gross error in the hope

they will fit it with a new legal seal. Some time after 1966 the original legal seal was “lost” or stolen because they do not wear out. Some bureaucrat ordered a replacement and was either ignorant of the law or too stupid to ask if there was a specific requirement for the seal. What mystifies me is that the Director of the Department of Health and the registrars did not spot the error and fix it. My conclusion is they just didn’t care about the law.

Figure 23. The Certification of Patricia Decosta dated 2002.

7. The hand stamped certification from the current registrar is a forged stamped notice.

The Department of Health has the right to produce a legal copy of the original Certificate of Live Birth for people who have the appropriate right to receive one. The Clerk in the office would search the document imaging database and retrieve the correct Certificate. The Clerk would then print out the tiff image on the green security paper. They would then take a rubber stamp that states the following: I CERTIFY THIS IS A TRUE COPY OR ABSTRACT OF THE RECORD ON FILE IN THE HAWAII STATE DEPARTMENT OF HEALTH. Then below this notice would be the likeness of the State Registrar’s signature, in this case it was Alvin T. Onaka, Ph.D. Then the clerk would stamp the date to the left of the certification. See Figure 24 for a Certificate done one month before the Obama’s April 25, 2011 Certificate. Please note that since it is a hand stamp the certificate stamp is skewed up on the right side.

Figure 24. Registrar stamp on a persons Certificate done March 2011.

Now let us look at Obama’s Certificate (see Figure 25) supposedly done on Aril 25, 2011. Notice the registrar’s rubber stamp has an error on the word “the” which reads “TXE,” but this error does not show up on the same rubber stamp used one month before. In Figure 26 you will see an enlargement of the word. You will notice that the “X” had been created by the graphic artist by filling in pixels so it appears like an “X” but it really is not. Also notice that the whole stamp is too straight on the form. The red lines drawn under two of the lines of type are aligned with the pixels. The stamp rises only two pixels over 3”. My conclusion is that the whole stamp was placed there by the graphic artist to look as straight as possible. The only problem is that no hand stamped notice like this would be placed that perfect on the page.

Figure 25. Obama's Registrar stamp with the errors on it,

Figure 26. Enlargement of the "TXE."

Other investigators have mentioned what looks like an italic "E" under the capital "A" in Alvin. In Figure 24 the same artifact does not appear. This artifact also does not show up on the Savannah Guthrie photo but does appear on all the other copies and PDFs the White House displayed. We have to assume either the artifact was already on the security image the forger used, and forgot to erase it, or it was placed there deliberately for some reason that we don't know yet.

8. Forged signatures of the Mother and Registrar. Forgery of a signature occurs in three ways. The old methods were someone would practice signing another's signature until they got good at it. Another was to simply trace the signature from a previously known signature. The new way is to find a signature and scan it into a computer. Then place that signature, or parts of a signature, onto the desired form or check. The signature of the mother, *Ann Dunham Obama* in Box 18a is made up of two images. The "Ann D" is in grayscale and the rest of her name is a binary image. The signature of the registrar *U"K"L Lee* is also made up of the same image types. The "K" really looks like "IL" and the *I* is a binary image and the rest of his name is grayscale. That means the *I* was added in another layer. Both errors can be seen included in Figure 27. Irrefutable proof the Obama Certificate is a forgery.

9. Multiple layers in the PDF file from the White House. I am not the first one to find this fact and they deserve the credit for discovering it. What they discovered is that when you open up the PDF file in Adobe Illustrator and you turn on layers, you see a long list of nine different layers that correspond to different sections of the form, including the signatures on the form. Figure 27 shows the layer that contains most of the typewriter and form text.

I discovered using just my Adobe Acrobat 8 Standard that I could also see the different components disappear when I enlarged the image to just 400% and used the "hand" tool to quickly move around the image. When I moved the image fast, the various type components would disappear from the form but the lines stayed just as I had concluded.

I also opened up the White House PDF file in WordPad so I could see the codes and headers in the file. There I discovered the evidence for the nine layers embedded in the code (see below). The big surprise I discovered was that the file was finished or created on April 27, 2011 at 12:09 pm and the copy I had downloaded from the White House web site was modified on April 28, 2011 at 9:58 am, the day after the news conference. The whole White House story that the President had his Seattle-based lawyer fly to Hawaii and pick up two signed and stamped paper Certificates of Live Birth and fly directly to Washington DC, is obviously not the document the public has been shown. In other words the whole story may not true. I checked the cost for UPS to ship the documents next day and delivery by 8:30 am Tuesday and it was only \$84.00. I checked the cost for a lawyer to fly last minute from Seattle to Hawaii then to Washington DC it is thousands of dollars. Their story is just not believable.

The PDF file indicates the PDF "CreatorTool" was *Preview* which is an Apple product that is just like Adobe's Acrobat Standard, which is a viewer and print driver. It is not a photo and image design program. It is just the program that created the PDF file (as a print driver). The Preview program can

also read twenty-six different image and document types, that includes Adobe Illustrator and Photoshop.

Defenders of the Administration’s argument that the layers were created by an OCR program (Optical Character Recognition) are also ridiculously wrong because the PDF file is not a searchable PDF therefore no OCR process was performed and additionally no text object was found within the PDF file I examined.

The discovery of nine layers in the PDF image didn’t matter for my analysis 1 through 7 because I was able to export the image as a TIFF (18.35 MB) out of that PDF using my Adobe Standard software. So I was working from a flattened image and was able to find all that I did, in other words the layers were irrelevant to me but was just further proof that the Obama’s Certificate of Live Birth is a forgery.

STATE OF HAWAII **CERTIFICATE OF LIVE BIRTH** **DEPARTMENT OF HEALTH**

FILE NUMBER **151** **61 1061**

1. Child's First Name (Type or print) 1b. Middle Name 1c. Last Name

BA ACK **HUSSEIN** **OBAMA, II**

2. Sex 3. This Birth 4. If Twin or Triplet, Was Child Born 5a. Birth Month Day Year 5b. Hour

Male Single Twin Triplet 1st 2nd 3rd Date **August** **4** **1961** **7:24 P.**

Place of Birth: City, Town or Rural Location 6b. Island

Honolulu **Oahu**

7. Usual Residence of Mother: City, Town or Rural Location 7b. Island 7c. County and State or Foreign Country

Honolulu **Oahu** **Honolulu, Hawaii**

7d. Street Address 7e. Is Residence Inside City or Town Limits? 7f. Is Residence on a Farm or Plantation?

6085 Kalaniana'ole Highway Yes No Yes No

8. Full Name of Father 9. Race of Father

BARACK **HUSSEIN** **OBAMA** **African**

10. Age of Father 11. Birthplace (land, sea or foreign country) 12a. Usual Occupation 12b. Kind of Business or Industry

25 **Kenya, East Africa** **Student** **University**

13. Full Maiden Name of Mother 14. Race of Mother

TANLEY **ANN** **DUNHAM** **Caucasian**

15. Age of Mother 16. Birthplace (land, sea or foreign country) 17a. Type of Occupation Outside Home During Pregnancy 17b. Date Last Worked

18 **Wichita Kansas** **S** **8-7-61**

23. Evidence for Delayed Filing or Alteration

Figure 27: The layer that contains most of the forms text and typewriter text.

I have received other White House PDF files from Graphic artists around the country. As a result I received a PDF Certificate that was put up on the White House web site no more than 10 minutes after it was uploaded. That PDF showed nine layers, no OCR (see Figure 28), Image file created at 7:50 am on the 27th (see Figure 29) and finally the PDF file created using *Preview* (the print driver) and modified on 4/27/11 at 12:09 p.m., which is similar to my file. My conclusion is that this shows the individuals in the White House were “fixing” or changing this forgery as late as 7:50 a.m., an hour before the pre-news conference.

Figure 28. Shows 9 layers and no OCR.

Figure 29. Created 7:50 AM

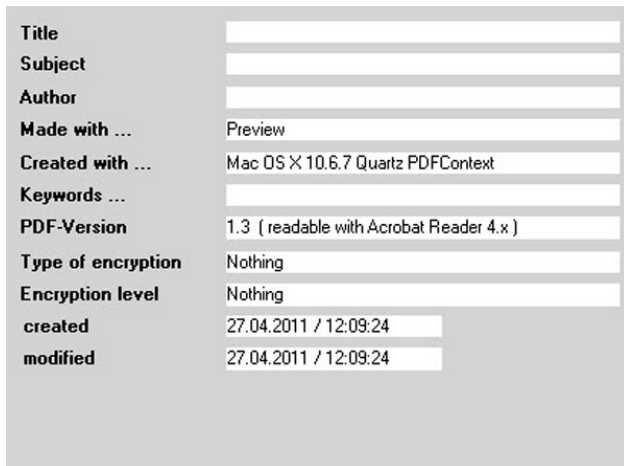

Figure 30. PDF modified 4/27/11 @ 12:09 am.

A Rebuttal to the Discovery of the Multi Layers Found in the PDF File.

To begin with the White House PDF was not a searchable PDF therefore no OCR process was performed on the image and therefore the following rebuttal and defense of Obama’s COLB is irrelevant and a very poor attempt at defending this blatant forgery.

The only rebuttal to the nine layers discovered in the PDF file released by the White House was a statement from Canadian graphic artists from Quebec by the name of Jean-Claude Tremblay on April 29. It was reported by Fox News and on their web site at:

<http://www.foxnews.com/politics/2011/04/29/expert-says-obamas-birth-certificate-legit/>.

He tries to excuse the multi-layers as merely an artifact of an OCR (Optical Character Recognition) engine and then saved as a PDF. There are three major reasons he is wrong and I know from his statement he knows nothing about OCR engines and how they work and their file structure. First the White House PDF file is not a searchable PDF and no text object could be found in the PDF file. Second, the Obama PDF certificate was supposed to have come directly from the Health Departments office. As stated before, the records they have would have absolutely no reason to be OCR'd and if they were asked to give the customer a PDF image it would be from their existing TIFF image stored in their document imaging program on the server. The program would have done no OCR processing at that time.

The third reason is the lack of OCR files in the PDF file. My qualifications on OCR programs are considerable. Our own document imaging program, TheRepository, has an OCR option from Expervision that is called TypeReader. We integrated TypeReader into our program but to do this we had to sign a non-disclosure statement with them and then we got their Took Kit and API. When an OCR program saves a file as a searchable PDF, the file contains three main files within it. The first file is an image file, usually a compressed Group4 TIFF. The second file is an ASCII text file and the last file is a matrix file that contains the X and Y coordinates of all the words in the document. The starting point for the image file and the matrix file is usually the upper left hand corner of the image measured in pixels. The text file and matrix files would never be seen as separate layers and there are certainly not nine layers. The three files would be in a PDF "wrapper" and that is all. All OCR programs work on the same principle.

Conclusion

The Certificate of Live Birth Obama presented on television on Aril 27, 2011 is a forgery.

In witness whereof he has hereto set his hand and seal.

Name of Notary: HONG LI

Title: CSM

I, HONG LI, a Notary Public of King County and the State of Washington aforesaid, hereby certify that Douglas B. Vogt personally known to me to be the affiant in the foregoing affidavit, personally appeared before me this day and having been by me duly sworn deposes and say that the facts set forth in the above affidavit are true **NOT** correct.

Witness my hand and official seal this the 10th day of May, 2011.

The American Typewriter

How a Young Computer Graphics Person Could Not Understand How to Use a Computer to Forge a Typewritten Document.

It's been some 30 years since we have used typewriters to produce documents. Computers have replaced the typewriter and given us great advantages in document preparation. There is no need to understand the old typewriter. Except when you need to forge a typewritten document.

A computer in the hands of a young person who can create a modern forgery is no match for the old style quirky mechanical typewriter. The forger who produced the Obama Hawaiian Long Form Health Department Birth Certificate may have thought that all typewriter typeface styles were alike. To get his letters he should have assumed that he needed only to match typewritten letters found in the old files of Hawaii birth certificates to scan ... copy and paste into his new document. Those old files should be all alike having been used to produce birth certificates in the 1961 era.

He must have understood that he needed to copy the old typewriter styles and would find them in the files.

But understanding scanners ... he also had to know that scanning a letter "t" one time and using it all over his document would be conviction assured. Because scan lines engage a letter differently every time it's done. So he scanned a bunch of old birth certificates and used a different "t" each time.

The mistake was that many of the letters in the old files were from different typewriter styles and that's something he did not realize ... resulting in many typewritten letters on his forgery that did not match each other.

I hope this helps to explain what might have happened with this document.

Paul Irey

Every typewriter typed character is assigned a number in the order it is found in the document.

EVIDENCE OF FORGERY

The two capital letters “A”s are from the word “**BARACK**” on the birth certificate found at section 8 of the form. There is only one letter between them. Why then is #144 significantly bigger than #146 if the same type-writer key struck both?

Notice the other differences seen in the same word from different locations on the birth certificate. All the letters look different. Why?

The two capital letters “R” are from the same word “**BARACK**” as above and the other word “**BARACK**” in section 1 of the form. Why then is #3 significantly shorter and wider than #145 if the same typewriter key struck both? Note also the enclosed area in #145 is smaller than the enclosed area in #3 even though #145 is taller.

The two lower case letters “s” from the word “**Hospit**al” in section 6c and “**Univer**sity” in section 12b are shown to be different because of the width of the letters. The lower case “s” #88 is wider than the lower case “s” in #198 as shown with the green and purple color bars shown under the letters.

The two numbers “2” are from “7:24” in section 5b and section 10 of the form. Why then is #40 significantly wider than #168? Notice also the difference in height of #168. Can you imagine how these two typewritten letters were typed with the same typewriter?

The two lower case letters “a” from the word “Male” found in section 2 and the word “Kapiolani” found in section 6c. Notice that the first “a” #23 is not as wide as #56. Also note the differences of the shape of the enclosed areas and the serifs at the top left of both.

From Section 2

Male
22 23 24 25

From Section 6c

Kapio
55 56 57 58 59

The two lower case letters “i” from the word “University” in section 12b and “Kapiolani” in section 6c are shown to be different because of the dots over the letters. The dot in #199 is higher than that of #58 and shows more space over the letter. Also note the color bars indicating the difference in width between the letters.

From Section 12b

ersity
196 197 198 199 200 201

From Section 6c

piola
57 58 59 60 61

The two capital letters “S” are from “HUSSEIN” in section 8 and “STANLEY” in section 13 of the form. Why then is #151 significantly more narrow than #201? Notice also the serif differences indicated with the arrows showing that the serif on #151 is placed further back to the left on the “S” than as shown on #201.

From Section 8

HUSSEI
149 150 151 152 153 154

From Section 13

STANLE
201 202 203 204 205 206

The two lower case “n” letters are different in size. #62 found in section 6c is much shorter than #193 found in section 12b. This is a good place to insert a photo of a typewriter key to remind us that the impression is struck by an engraved letter that is steel and incapable of changing size.

Close up of a Typewriter Key flopped for clarity

From Section 6c

iolani
58 59 60 61 62 63

From Section 12b

Univer
192 193 194 195 196 197

The two lower case letters “e” #25 from the word “Male” found in section 2 and the word “Maternity” found in section 6c show us that #25 is from a different design of type style with a tilting horizontal bar and #25 is also bigger in size.

The two lower case letters “u” from the word “Honolulu” #101 from section 6a and “Oahu” #105 from section 6b are shown to be different in width as indicated with the color bars above the letters. Also note the different design of the bottom part of the letters.

The two numbers “1” from the date “1961” #35 from section 5a and “18 Wichita” #225 from section 15 are shown to be different in width as indicated with the color bars below the letters. Also note the different design of the bottom part of the letters.

The Word “Student” found in section 12a of the birth certificate was the first problem I noticed because it was one word with two variations of the letter “t” and was clearly a different drawing of the letter mainly displaying a different extension at the bottoms of those letters. As a typographer I could see no reason for a

different style of letter within the same word. Other examples on the page seem to suggest that perhaps the form was transferred to different departments to fill out different sections ... but that could not happen with one word. Later study showed that too many of the letters on the birth cert.did not match each other ... even for many typist.

**If all the letters are from the same
typewriter ... why don't
they match? It appears that it
was put together with letters from
different sources
and this means it's a forgery!**
