UNITED STATES DISTRICT COURT  
FOR THE DISTRICT OF COLUMBIA

Dr. ORLY TAITZ, ESQ, PRO SE  
Plaintiff,

v

Michael Astrue, Commissioner of the  
Social Security Administration,

Respondent

Freedom of information violation  
5USC §552  
CASE # 1:11-cv-00402  
Assigned to Chief Judge  
Hon. Royce C. Lamberth  
Designation: FOIA/Privacy Act  
**Motion for Clarification**

**NOTICE OF MOTION AND MOTION FOR CLARIFICATION**

Plaintiff Dr. Orly Taitz, ESQ, hereinafter "Taitz" is submitting this motion for Clarification to be decided based on the memorandum of points and authorities attached herein and oral argument, if the court finds, that the oral argument is required.

**MEMORANDUM OF POINTS AND AUTHORITIES**

Defendant filed Motion to strike, requesting to seal the complaint, first amended complaint and all the exhibits or alternatively redact social security numbers.

Plaintiff thanks the court for allowing the documents not to be sealed, and only requesting refilling with redaction. Plaintiff believes that this case is of the outmost National importance and sealing the complaint and the exhibits will deprive the public of their right to know the truth.

Plaintiff, however, is requesting clarification from the court and the defense, as to what do they want redacted, if anything. Clarification is needed for following reasons:

1. There is a requirement of redaction of **VALID** social security numbers. Individuals should have only one social security number.

2. Affidavit of investigator Sankey, attached as an exhibit to the complaint, shows that national databases, such as Lexis Nexis and Choice Point, showed over a hundred bogus units of bogus social security numbers and addresses, which included some 39 different social security numbers, none of which were issued in HI, where Obama resided, when he started using a social security number. As one individual is supposed to have only one social security number, and there are N numbers in the databases, it means that at least (N-1) numbers are not valid and do not need to be redacted or all N numbers are invalid and do not need to be redacted. There was high probability, that all 39 numbers are invalid, as none were issued in HI. Affidavits of investigator Susan Daniels and recently retired senior deportation officer of the Department of Homeland Security, John Sampson, confirm, that Obama could not possibly obtain Connecticut social security number, while residing in HI. (Exhibits to first amended complaint)

3. Searching through those numbers Taitz found that Connecticut number 042-68-~~4115~~, is most commonly used.

4. Obama's selective service certificate shows him using this number.( Exhibit 1)

5. Social Security Verification systems (Exhibit 2) shows, however, that this number 042-68-~~4115~~ was never issued to Obama. This means that none of the numbers used by Obama during his life and used today in the White House, are

valid numbers . Those are either numbers, that were never assigned or numbers, that were assigned to deceased individuals, whose death was not reported to the Social Security administration. Mr. Obama's lifelong friend, domestic terrorist William Ayers, aka Mr. "Guilty as sin, free as a bird", described in his memoirs, Fugitive Days, how he and his wife, Ms. domestic terrorist Bernadette Dohrn, searched through the cemeteries for graves of children, got their birth certificates and applied for the social security numbers under the names of the deceased. "After the Baltimore fiasco, stealing ID was forbidden. Instead we began to build ID sets around documents as flimsy as a fishing license or a laminated card available in a Times Square novelty shop called "Official ID." We soon figured out that the deepest and most foolproof ID had a government-issued Social Security card at its heart, and the best source of those were dead-baby birth certificates. I spent impious days over the next several months tramping through rural cemeteries in Iowa and Wisconsin, Illinois and North Dakota, searching for those sad little markers of people born between 1940 and 1950 who had died between 1945 and 1955. The numbers were surprising: two in one graveyard, a cluster of fourteen in another. Those poor souls had typically been issued birth certificates—available to us at any county courthouse for a couple of bucks and a simple form with information I could copy from the death announcement at the archive of the local paper—but they had never applied for a Social Security card.

Collecting those birth certificates became a small industry, and within a year we had over a hundred. For years I was a paper-made Joseph Brown, and then an Anthony Lee, remarkably durable identities. My on-paper official residences: a transient hotel in San Francisco and a warehouse in New York." Bill Ayers, Fugitive Days. Ayers had a whole business of forged social security card making. It is unfortunate, that the person, occupying the position of the U.S. president, was using and is using a bogus social security number.

Clearly Mr. Obama cannot suffer any losses, due to his use of an invalid number, however there is a great benefit to the public at large, to ascertain the loopholes and malfunction within the Social Security Administration and make sure, that not only Mr. Obama is ultimately prosecuted, but also to make sure, that proper measures are taken to prevent such occurrence in the future. Great public interest and great significance of this most important matter of the national security outweigh minor inconveniences for the defendant commissioner of the Social Security administration and for Mr. Obama.

6. Since NONE of the numbers used by Mr. Obama represent a valid social security number, assigned to him, Taitz needs clarification from the court and the defendant, commissioner of the Social Security Administration, what exactly do they want her to redact? Do they want her to redact numerical gibberish, numbers that are invalid and were never assigned or the numbers, that were stolen from the deceased individuals? Please advise.

Respectfully submitted,

Taitz v Astrue Motion for Clarification 06.06.2011
