USPS Inspector General
USPS Office of Inspector General
1735 N. Lynn Street
Arlington, VA 22209-2020

June 22, 2012

Attention USPS Inspector General David C. Williams regarding mail fraud and use of a fabricated USPS stamp

Dear Mr. Williams, please find attached evidence of fabrication of an USPS stamp.

Please see attached:

- 1) Affidavit of Sheriff of Maricopa County, Arizona, Joseph M. Arpaio
- 2) Newspaper article explaining fraud and falsification of the USPS stamp
- 3) Report of March 25, 2009 meeting by Dr. Orly Taitz, ESQ and William Austin Chatfield, director of Selective Service regarding forgery of Selective Service Certificate of Barack Hussein Obama, II
- 4) DVD of press conference by Sheriff Joseph M. Arpaio

Based on the exhibits attached, mail fraud and USPS fraud was committed when the USPS stamp was fabricated on alleged application for Selective Service by Barack Hussein Obama, II. Based on investigation by Sheriff Joseph M. Arpaio, above application is forged. Due to the matter of threat to national security I am demanding an immediate investigation of the above matter and prosecution of parties involved in fabrication of the USPS stamp, and Barack Hussein Obama, II for uttering of a forged Selective Service application with a fabricated USPS stamp on it.

Sincerely,

Dr. Orly Taitz ESQ.

AFFIDAVIT

I, the undersigned, being first duly sworn, do hereby state under oath and under penalty of perjury that the facts are true:

1. I am over the age of 18 and am a resident of Arizona. The information contained in this affidavit is based upon my own personal knowledge and, if called as a witness, could testify competently thereto. I am the duly elected Sheriff of Maricopa County, Arizona, and I have been a law enforcement officer and official, in both state and federal government, for 51 years.
2. In August of last year, a group of citizens from the Surprise Arizona Tea Party organization met with me in my office and presented a petition signed by approximately 250 residents of Maricopa County, asking if I would investigate the controversy surrounding President Barrack Obama's birth certificate authenticity and his eligibility to serve as the President of the United States.
3. This group expressed its concern that, up until that point, no law enforcement agency in the country had ever gone on record indicating that they had either looked into this or that they were willing to do so, citing lack of resources and jurisdictional challenges.
4. The Maricopa County Sheriff's Office is in a rather unique position. Under the Arizona Constitution and Arizona Revised Statutes, as the elected Sheriff of Maricopa County, I have the authority to request the aid of the volunteer posse, located in the county, to assist me in the execution of my duties. Having organized a volunteer posse of approximately 3,000 members, I, as the Sheriff of the Maricopa County Sheriff's Office, can authorize an investigation go forward to answer these questions at virtually no expense to the tax payer.
5. The Cold Case posse agreed to undertake the investigation requested by the 250 citizens of Maricopa County. This posse consists of former police officers and attorneys who have worked investigating the controversy surrounding Barack Obama. The investigation mainly focused on the electronic document that was

presented as President Obama's long form birth certificate to the American people and to citizens of Maricopa County by the White House on April 27, 2011.

6. The investigation led to a closer examination of the procedures regarding the registration of births at the Hawaii Department of Health and various statements made by Hawaii government officials regarding the Obama birth controversy over the last five years.
7. Upon close examination of the evidence, it is my belief that forgery and fraud was likely committed in key identity documents including President Obama's long-form birth certificate, his Selective Service Registration card, and his Social Security number.
8. My investigators and I believe that President Obama's long-form birth certificate is a computer-generated document, was manufactured electronically, and that it did not originate in a paper format, as claimed by the White House. Most importantly, the "registrar's stamp" in the computer generated document released by the White House and posted on the White House website, may have been imported from another unknown source document. The effect of the stamp not being placed on the document pursuant to state and federal laws means that there is probable cause that the document is a forgery, and therefore, it cannot be used as a verification, legal or otherwise, of the date, place or circumstances of Barack Obama's birth.
9. The Cold Case Posse law enforcement investigation into Barack Obama's birth certificate and his eligibility to be president is on-going. The on-going nature of the investigation is due to additional information that has come to light since we held the press conference in March, 2012. As soon as that information has been properly verified by the Cold Case Posse, I will release that information to the public.

Executed this 12 day of June, 2012, in
Maricopa County, Arizona.

Joseph M. Arpaio, Maricopa County Sheriff

Sworn to and subscribed before me this

SHERIFF JOE DEMANDS OBAMA DRAFT REGISTRATION

Selective Service regulation changed days after probe announced

Published: 05/10/2012 at 8:27 PM

by **JEROME R. CORSI** [Email](#) | [Archive](#)

Jerome R. Corsi, a Harvard Ph.D., is a WND senior staff reporter. He has authored many books, including No. 1 N.Y. Times best-sellers "The Obama Nation" and "Unfit for Command." Corsi's latest book is "Where's the REAL Birth Certificate?"

Providing proof that Sheriff Joe Arpaio intends to continue his investigation of President Obama's eligibility, his Cold Case Posse has pressed the director of the Selective Service System not to destroy any microfilm records that may yet exist of Obama's 1980 draft registration form.

In an emergency letter Wednesday to Selective Service System Director Lawrence Romo, Mike Zullo, the lead investigator in the Cold Case Posse, asked for reassurance that the microfilm records still exist.

"We would like to be assured of the disposition of the microfilm reel or reels containing President Obama's Selective Service registration form," Zullo wrote. "Please indicate whether or not you have possession of the microfilm reel or reels containing President Obama's records or access to them."

The concerns were raised after Arpaio's office received official confirmation from the Selective Service System that Obama's paper draft registration records have been destroyed after being microfilmed.

In addition, an article published Monday by the Washington Times "Communities" social journalism section reported new Selective Service privacy rules might allow existing microfilm records to be destroyed as well.

Zullo expressed concern the microfilm records of Obama's draft registration form might already have been destroyed.

"In the unfortunate event the microfilm reel or reels containing President Obama's Selective Service registration form has been destroyed, can you please advise of the date the records were destroyed and the location at which they were destroyed," he asked.

Zullo's letter gave Romo 10 business days within receipt of the letter to respond.

Romo, who was appointed director to the U.S. Selective Service System in 2009 by President Obama, reports directly to the president.

Selective Service admits destruction

On March 28, Arpaio wrote Romo a letter directly asking if the Selective Service System still retained the original paper and ink copy of Obama's draft registration form.

"If your office has the original, authentic Selective Service registration form for Barack Obama from July 29, 1980, please indicate whether or not you have possession of this document," Arpaio wrote. "If the document is in your possession, please make it available for inspection by my Sheriff's Office investigators. We will travel to your facility to analyze it."

On April 3, Richard S. Flahavan, associate director of public and intergovernmental affairs for the Selective Service System, responded to Arpaio with a letter indicating the agency had destroyed Obama's original paper and ink draft registration form.

"The simple response is no; it was destroyed in 1980," Flahavan wrote. "Per agency policy and practice, when a Selective Service System record is created from the registration card, the card is microfilmed and the paper card is then destroyed. This has been our policy for more than 30 years."

Is the microfilm safe?

In the Communities @Washington Times article, Alan Jones noted that the Selective Service System published new privacy rules in the Federal Register Sept. 20, 2011, four days after WND reported Sept. 16, 2011, that Arpaio had commissioned the Cold Case Posse to open an inquiry with full subpoena power into the alleged forgery of several Obama identity documents, including his long-form birth certificate and his Selective Service draft registration form.

Jones article noted it was the first update to Selective Service privacy regulations in 11 years.

The key change is that the new regulations reclassify the status of draft registration forms from "record copies" to "non-record copies," with the proviso that "non-record copies" are subject to disposal.

The new privacy regulations further allow the Selective Service System to destroy microfilm copies of Selective Service registration forms under certain circumstances.

Date stamp forged?

In his March 1 press conference in Phoenix, Arpaio announced the Cold Case Posse had found probable cause that Obama's long-form birth certificate and his Selective Service registration form are forgeries.

Exhibit A shows Obama's Selective Service registration form, with the Post Office date stamp, July 29, 1980, in the lower right corner.

Arpaio's investigators reviewed a number of authentic Selective Service registration forms obtained from the federal government through Freedom of Information Act requests.

Read the preliminary findings of Sheriff Arpaio's Cold Case Posse investigation.

Exhibit B presents four of the authentic Selective Service registration forms. All of the forms have a

Post Office stamp that indicates the year with four digits.

In sharp contrast, the year designation in Obama's Selective Service registration has two digits, specifying only "80" instead of "1980."

Exhibit C shows the standard Post Office date-stamp equipment that was used to stamp Selective Service registration forms. A close-up shows the three slots on the bottom of the stamp in which the month, day and year plugs were inserted.

Exhibit A: Barack Obama's Selective Service registration form

Exhibit D shows five examples of the expected results from the pica stamp used by the U.S. Post Office to date-stamp Selective Service registration forms.

Exhibit B: Authentic Selective Service registration forms, with Post Office stamps containing four-digit year designation

The first two stamps in the illustration are from the same Post Office - Makiki Station in Honolulu, Hawaii - indicated on Obama's Selective Service registration.

While some of the letters stamped in the outer ring on some of the authentic documents are indistinct or even missing, all of the authentic date stamps include four digits for the year at the center of the stamp.

Investigators duplicate Obama's date stamp

Arpaio's investigators located and interviewed several 1980s-era Post Office employees who attested that it was standard procedure to utilize a four-digit date stamp.

Investigators next turned their attention toward figuring out how Obama's Selective Service registration form could possibly have obtained a two-digit year stamp.

Exhibit E shows investigators were able to obtain an authentic 1980 pica date stamp. The photograph also shows the knife set used in the investigation.

Since investigators could find no 1980 pica Post Office date stamps available, they had no choice but to cut a 2008 pica Post Office date stamp and invert the "08" half, so that when it was placed in the date compartment, the stamp printed out "80."

Surprisingly, the result ended up looking identical to the date stamp on Obama's Selective Service registration card, as demonstrated in Exhibit F.

Exhibit G makes clear that the off-to-the-right date stamp seen in the registration, the same as is seen in the demonstration by Arpaio's investigators, is not observed in the authentic four-digit

Exhibit C: Standard Post Office date stamp, Selective Service registration

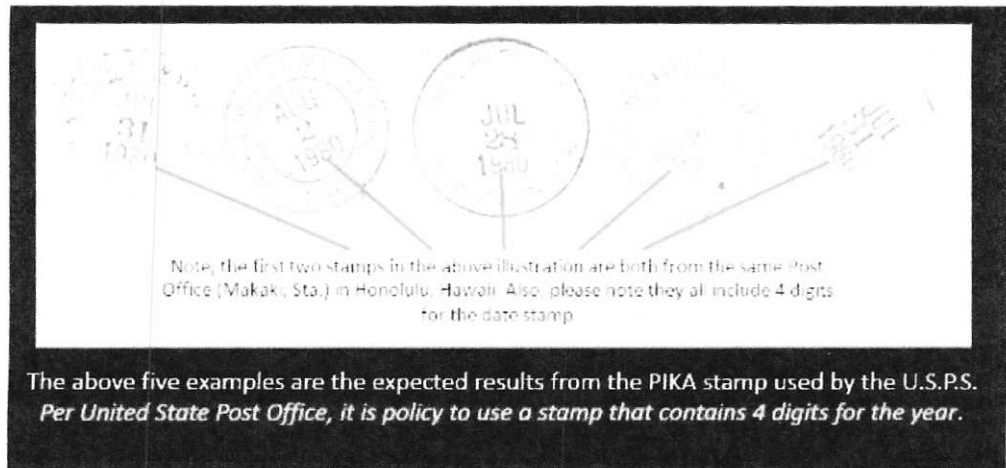

Exhibit D: Authentic Selective Service registration date stamps, 1980

pica date stamp used in the same office indicated on Obama's Selective Service registration, which has the same month, July 1980.

The numbers "80" are out of line to the right in Obama's card because when they were cut away from the "2008" date plug, they were not cut squarely.

Arpaio's investigators concluded that Obama's Selective Service registration form fit into what was becoming a common narrative for his life: The document was not only forged, it was poorly forged.

In a March 19 letter addressed to Romo, Arpaio explained that MCSO investigators were able to replicate the alleged forgery.

Excerpt of a report of a March 25, 2009 meeting by Dr. Orly Taitz, ESQ and William Austin Chatfield, director of Selective service regarding forgery of Selective Service Certificate of Barack Hussein Obama, II

Dr. Orly Taitz, Esq. met with William Austin Chatfield, Director of Selective Service at 10:15am EST , March 25, 2009 .

The meeting took place at: Selective Service System, National Headquarters 1515 Wilson Blvd. Arlington, Virginia 22209.

Dr. Taitz introduced herself as the attorney for 140 Military Plaintiffs, active and retired, subject to recall, who are concerned about the Constitutional authority of Barack Obama to be Commander in Chief. Major General Carroll D. Childers is among these Plaintiffs. In addition to being attorney for the Military Plaintiffs, Dr. Taitz also represents 10 State Representatives in this matter. Based on this, Dr. Taitz addressed Mr. Chatfield on some inconsistencies found with Barack Obama's Selective Service Registration records.

Dr. Taitz presented some of the findings (Attachment A) that were delivered to US Department of Justice Eric Holder, Jr., Attorney General. The findings indicate that Barack Obama's Selective Service Registration document was created in 2008, and backdated to 1980. Dr. Taitz showed Mr. Chatfield that the Document Location Number, 0897080632, appears to be a 2008 creation. However on the printout, an extra eight (8) was added in front of the number to make it look like it is from the year 1980.

Dr. Taitz also showed Mr. Chatfield that the postal stamp on the Selective Service Registration Form was incorrect. The stamp used was an obsolete postmark round dater-stamp (retired almost ten (10) years before 1980) to validate a legal document. Mr. Chatfield didn't have any comment on these inconsistencies nor did he offer any explanation.

Dr. Taitz provided Mr. Chatfield with a full copy of the dossier sent to the Attorney General, Eric Holder. A copy can be downloaded here:

She highlighted sections of the dossier to show Mr. Chatfield that Barack Obama has hundreds of Social Security Numbers and properties associated with his name. One Social Security Number in particular was issued in Connecticut , and lists him as being 118 years old.

(Attachment B)

While addressing the issue of hundreds of Social Security Numbers and properties being associated with Barack Obama's name, Dr. Taitz drew attention to two addresses of interest: one located in Illinois and another in New Jersey .

The address located in Illinois , 1525 S. Sangamon St. Unit 707, Chicago IL was sold to an Osama Barakat. The Osama Barakat listed (Attachment F) has connections to a foundation that is listed in the "Golden Chain" as sponsors of al Qaeda.

(Attachment C) shows an address in New Jersey for Kelly J. McCrum, wife of Craig M. Robinson. Craig Robinson is Michelle Obama's brother, and is listed at 45 Willow Street in South Amboy, NJ. Not only can this address not be found by mapping the street, but this address had a credit lien on it by a company, Burlow Plumbing. Burlow Plumbing has a commercial affiliate named Magic Plumbing.

(Attachment D) shows that Magic Plumbing had worked on the sprinkler system at the World Trade Center just days before 9/11. One of the men that performed this work lived in Brooklyn . He left Brooklyn on 9/11 and went to Tennessee . A woman that had a court date involving identity theft with the motor vehicle department in Tennessee met a mysterious death. Mr. Chatfield had no comment or thought in reference to this material being shown to him. Dr. Taitz then provided Mr. Chatfield with information on Barack Obama's former client, Ahmad Bavarati. (Attachment E). Mr. Bavarati ran a non-profit called the Iran Earthquake Relief Fund, which subsequently changed its name to American Care Society, but still supported scientific work in Iran . Mr. Chatfield promised he would look into these matters.
