

# AFFIDAVIT

[illegible]

I, Paul Edward Irey, being duly sworn, depose and say underpenalty of perjury:

1. I am over the age of 18 years old, am a resident of Florida located at Delray Beach and have been previously accepted by the courts as an expert witness and have testified as such expert to the information contained in this affidavit is based on my personal knowledge and, if called as a witness, I could testify completely thereto.
2. I have 57 years experience in graphics. first in serving with the U.S. Air Force being trained as a clerk typist, two of those years with the National Security Agency for which I had a Top Secret security clearance during the years 1957 and 1958.
3. Following that I was employed in Manhattan, New York on the art staff of the Hearst trade journal American Druggist. I was employed at various advertising agencies in Manhattan until 1968 when I started my own business in Ft. Lee, New Jersey named Bergen Graphics.
4. By the mid seventies I employed 60 people as graphic artists, typesetters, camera and darkroom workers doing pre-press services for major retail and printing firms in the New York city area such as Montgomery Ward Catalogs and weekly newspaper ads nationwide, Acme markets newspaper ads for the entire supermarket chain in the northeast, Hearst Blue Book Auto Repair manuals, Key Food Stores of New York and Long

Island, Diana stores, Great Eastern Stores, Finest Supermarkets, Hills Supermarkets, Grand Union Supermarkets, etc.

5. In addition to overall knowledge of typography, Photography, four-color stripping and all facets of film preparation for offset printing, I have 26 years experience in desktop publishing with Macintosh Computers since their inception and have used Adobe Photoshop and Adobe Illustrator on a daily basis since their inceptions in 1987 and 1989.
6. The first Exhibit "A" annexed herewith is a page from a recent issue of my latest graphic production was published by the the Washington Times weekly edition that contains much of the evidence that I will explain in this affidavit.
7. I prepared and wrote this full page shown as Exhibit A myself and attest that the evidence contained therein is accurate and represents evidence of forgery of what on 27 April at the Press Conference presentation by White house Consel Bob Bauer, While Press Secretary Jay Carney and Barack Obama himself allege is Obama's long form birth certificate.
8. The actual document I used for examination of the Obama birth certificate is described in the following chain of evidence contained in Exhibit "B" ... page 1 & 2 & 3 anneexed herewith, and
9. That shown as Exhibit "B" page 1 and 2 is the proof of purchase of a 14" x 16" reproduction print from Associated Press through their division called "Replay Photos" that sells photographic items from their news service and that shown as Exhibit "B" page 3 is a copy of that page purchased as a true and accurate copy of what the ASSOCIATED Press acquired from the White House at the news conference on the morning of 27 April 2011.

## Paragraph 10

Shown below is an enlarged section of the Obama long form birth certificate that was released online at whitehouse.gov on 27 April 2011. No admission has been made as to who actually scanned and converted this to an Adobe Acrobat PDF file and posted it on the official White House website. It is not known if it was someone at the White House or someone at the Honolulu department of health that had previously provided two copies of Obama's birth certificate that were hand-carried from Hawaii to the White House.

The important feature to observe is that everything in black is outlined in white. This will be referred to as "The White Halo".

The Honolulu dept. of health alleges that the procedure for making copies of birth certificates is to take the binder where the birth certificates are stored and open it up to the one they copy, place it face down on an ordinary copy machine and simply copy the document to green security paper instead of white paper.

Given that this is the normal procedure, I see no reason for the white halo. I have seen many other birth certificates from Honolulu in the year and a half that I have spend examining this issue of forgery, and can attest that none of those other birth certificates from Hawaii had a white halo.

## Paragraph 11

Shown below is what we should have seen if the birth certificate original form was actually copied to the green security paper and we would see no white halo. Copiers do not print white, which is the only way white could be seen anywhere over this green security paper. I was able to purchase this special paper on the internet. The green color and hash marks are dye printed through to the other side. In other words the paper is green on both sides and there is no white anywhere.

## Paragraph 14

The chain of evidence for the white halo is proven with this enlarged section of the Associated Press purchased print referred to in Exhibit "B 1 & 2" that came from the Xerox copy made at the White House of one of the two originals sent from the Honolulu Dept. of Health, according to the description made during the news conference at the White House on 27 April 2012. The White House black and white copier would have normally dropped out the green security color background along with the white halo. However I found that by darkening the background of the Associated Press copy, we are still able to see remnants of the white halo. This shows us that the white halo must also be on the original sent from the department of health in Honolulu. We now have new evidence on this issue when a Los Angeles law firm requested that the Honolulu Dept. of Health confirm that what is currently downloaded from whitehouse.gov website is thier document. See the next paragraph 15 of this affidavit.

## Paragraph 15

The first picture at the bottom left is a section of the original PDF file released on whitehouse.gov on 27 April 2012. It represents the color appearance we have been looking at for 1 1/2 years. The middle picture at the bottom center is a section of the document sent to the attorneys for the Mississippi Democratic Party in Taitz et al v. Democratic Party of Mississippi No. 3:12-cv-00280-HWT-LRA (S.D. Miss.) See attachment "C", the letter from the registrar of births for the state of Hawaii, Alvin Onaka.

It is my understanding and belief that Attorney Pepper requested a confirmation from the director of the Honolulu Dept. of Health, Lorretta Fuddy, that the PDF file released on whitehouse.org on April 27, 2011 came from their office and Loretta Fuddy passed it on to Alvin Onaka who replied to Pepper with letter "C". Pepper passed that on to Begley. Begley, who is a MS lawyer, filed it with the court, along with the altered PDF file that we must assume came from Onaka. The bottom right picture is my example to show the result of the specific settings needed to match the alterations seen in the center photograph. These settings are seen in the 3 boxes at the right that resulted in my own match of Onaka's effort to change the evidence. My conclusion is that the PFD file was altered to eliminate the white halo by actions taken at the Honolulu Dept. of Health so as to hide the error that proves manipulation by a computer process not available in 1961, and otherwise represents proof of forgery, if not altered.

# OBAMA'S BIRTH CERTIFICATE

Take a closer look at the Obama Long Form Birth Certificate And Then Ask ... "Why Hasn't our Congress Taken a Closer Look?"

The important section of the Obama long form birth certificate is displayed below and enlarged to fit this page. We have found 19 proofs of forgery on this document so far and are showing 7 areas of our easiest to understand evidence here. We are 2 typographers with a combined experience of 70 years creating and examining our own documents along with expertise in scanning, graphic arts, photography, reproduction, printing, and also including

the use of the old manual typewriters along with computer created documentation while starting and owning our own successful business employing over 70 people. Allegedly in 1961, a typewriter produced this document on a form, but the evidence shows us this birth certificate was created last year on a Macintosh computer, sending two copies of that form to the White House. The White house then posted a copy online and gave zerox copies to the media that

is the source for our exam. We recognize that forensic document examiners should be involved in this. Our group attempted to employ over 225 of the 2,000 certified forensic document examiners in this country. All of them refused to either look at or discuss the Obama birth certificate. Excuses given were ... "I do work for the government" or "I support Obama." or "I must see the original." We have found this birth certificate to be a badly done forgery.

## 1. Miss-Matched Typed Letters

Compare these typewritten letters enlarged from the birth certificate. We have marked the ones chosen with a blue dot under the original letter. Of the 15 pairs chosen, one set is from the word "Student" that exhibits two different type styles of the "t" within the same word. These support our contention that the typed letters were copied and assembled from different documents. Note the size and shape differences. These letters could not have come from the same typewriter. This is proof of forgery.

aa ee EE 66 11  
AA II nn SS KU  
ss tt yy ii KU HUSSEIN

## 2. The Bent Cap "H"

We have enlarged "HUSSEIN" below to point out the bent cap "H". It is not unusual for typewriter letters to be bent. They are often bent when the typist gets 2 keys stuck together and must pull them apart. If a typewriter letter is bent, it stays bent and does not type bent for the typing of only a single letter. This is proof of forgery because the other 8 cap "H"s on this birth certificate are straight.

## 3. The Certificate Number

If someone decided last year to forge a birth certificate for a person, they would need a birth certificate number that was issued in the 1961 era. A baby born the same day in Hawaii as Barack Obama ... died the next day. We believe that babies number was 61 10641. The family requested her birth certificate and got the short form with a number out of sequence. They then requested the long form and were refused. They brought a lawsuit before the Hawaiian courts. It was denied, with the court explaining that the Honolulu Dept. of Health could decide if they wanted to provide the birth certificate of the deceased baby or not.

## 4. The Start of Line Error

The word "Kapiolani" should be exactly under the word "Male", not a half space indented. This is proof of forgery. Also the fact that not all the lines are flush to the left is suspicious. No other birth certificate exhibits this peculiar style.

**7. The White Halo** The white halo, seen on the online White House release is a white outline around everything on the birth certificate. No other birth certificate has this. See it on Exhibit "A" below & Exhibit "B" showing how it should look. This was caused by the Adobe Photoshop filter used to sharpen edges. It does this by choking back the edge leaving a white halo. We show in Exhibit "C" how we did the same thing to our specimen example. The Hawaiian Dept. of Health is supposed to have put the original birth certificate on a copier and printed to a special green security paper instead of white paper. The only result possible from that is Exhibit "B", NOT exhibit "A". The halo proves that the forger combined a scan of the security paper on a computer ... flattened all of the elements in the file and then applied the Unsharp Mask. It is even on the birth certificate above ... see upper left corner. Since this is a direct copy of the birth certificate sent from Hawaii, that proves the white halo was on what they copied, so we must assume the Hawaiian original has it also. This is proof of forgery.

## 6. Irregular Letter Spacing

The original locations of the two-letter combinations below are marked with a blue outline. These are just some of the combinations that vary in the space between the letters. These spaces should be equal, not different, since the old mono-spaced typewriters always moved a specific amount after each letter was typed. We feel that the forger, assembling these letters manually on a computer could not replicate the exact spacing that the old style mechanical typewriters produced. This is proof of forgery.

Donald Trump's gift was that it forced Obama to rush out a forgery. In a sane world Congress would hold hearings and nullify everything he did in office. As an usurper Obama can't be impeached, but should be pressed for the crimes of forgery & treason. Obama's legitimacy is empty of integrity. Now Congress has a "Duty to investigate" or may soon become an Accessory After the Fact to felony and treason.

© Paul Irey & Douglas Vogt 2012

Congress failing to investigate this forgery is neglecting their constitutional "Duty to Object".
